FOUR-TENTHS OF POINT DROP IN LIVING COSTS

OTTAWA, May 5 (CP).—The cost-of-living index declined four-tenths of a point during March to 188.7 from 189.1, the Bureau of Statistics reported today. It was the third monthly decline in a row.

A drop in food prices again was the main factor in pulling down the price barometer which rose to a peak of 191.5 last December, the bureau said. Clothing and home furnishings also contributed to the decline.

The index dropped seven-tenths of a point during January to 190.8 and by 1.7 points during February to 189.1. The index is based on 1935-39 prices equalling 100.

Fresh Unrest Hits Prison

Suspected Leaders in Wild Quebec
Riot Sunday Attempt New Outbreak

MONTREAL, May 5 (CP).—Fifteen diehards among rioting prisoners at Montreal's Bordeaux Jail started a new disturbance today that was quickly put under control.

The outbreak occurred in the yard. The men rushed a wooden fence separating them from one wing of the prison. Police and guards turned them back.

This was the first break in the hair-trigger truce which early today marked the last stages of a riot that rocked the sprawling jail Sunday.

Sunday's rioting started with a mass protest over quality of food served.

The prisoners wrecked parts of the jail interior and many cells, broke cell locks and swarmed out into the jail yard where they ran wild for nearly five hours.

The riot died out and the prisoners returned to the main building. Police, who had stood outside the iron fence of the yard, followed them in but did not force them.

Some prisoners were transferred early today to cells in provincial police headquarters downtown and to the few cells in the old courthouse where prisoners normally are placed awaiting trial in the courtroom.

NEW PROTEST

Because of the wrecked condition of the jail, prisoners were still roaming about today.

There were still shouts over the food situation, although police cars brought oranges and apples to the prisoners late Sunday night.

The prisoners still had access to the jail yard. Some of them drifted out there today.

New Protest Over Sandwiches

Their new protest today was that sandwiches were served.

"We can't live on sandwiches," some of the prisoners shouted. They tossed the sandwiches in the air.

The 15 who tried to start trouble again today were believed to be ringleaders of Sunday's outbreak, when nearly 600 prisoners went on an orgy of destruction.

There was also some danger that more than 800 patients in a mental-hospital wing might take part in any fresh outbreak. This outbreak were incoherent.

Damage May Hit \$400,000 Mark

Throughout the early morning hours guards searched for weapons. There were reports that butcher knives had disappeared from the prison kitchen and straight razors from the barber shop.

There was still no official estimate up to early afternoon today of the damage caused by the rioters who set a dozen small fires, burned mattresses in their cells and smashed furniture, dining room tables and equipment in administrative offices they could reach. Unofficial estimates of the damage ran as high as \$400,000.

Early morning reports said some of the prisoners had drunk hair tonic and rubbing alcohol stolen from the barber shop and infirmary.

The canteen was raided at the height of Sunday's outbreak and cigarettes and chocolates passed freely about in the jail yard.

There appeared to be no riot Sunday night or today between the rioters and the jail guards.

B.C. SOURCE UNAFFECTED

Oil Strike Crippling U.S. Gas Users Not Extended to California

B.C. oil company executives foresee no difficulties here through the oilworkers' strike in the United States, since most supplies come from California, where union employees are still at work.

"All we require is crude oil, since the three refineries at Vancouver produce all types of motor fuels, including high-octane aviation gasoline and jet fuels," a Victoria oil company official said today.

A small exception is the import of certain materials from the United States for the blending of some lubricating oils.

Given adequate supplies of crude oil, he said, the industry in this province is able to meet the normal demand for refined products.

Meanwhile the grip of an oilworkers' strike today squeezed U.S. commercial, private and military aviation. But its effect mounted only slowly for the jet of the gasoline-powered country.

The strike, called last Wednesday, closed some of the world's greatest oil refineries, including key units for production of aviation gasoline, and was felt in distribution facilities.

The result was an order Sunday by Interior Secretary Oscar Chapman limiting the use of gasoline by airlines and private fliers effective tomorrow.

His order, effective at 4:01 a.m. E.D.T., 1:01 P.D.T., cuts fuel for airlines by 30 per cent. Pleasure and sports flights by private fliers are cut entirely.

Both carrier and non-carrier aircraft will be prohibited for 28 days beginning Tuesday from taking delivery of more than 65 per cent of the gasoline they used in March. The order also applies to foreign airlines flying from the United States. And it forbids export of aviation gasoline without permission of the petroleum administration for defense.

Week-Long Fair Opens This Evening

B.C. Products Fair, sponsored by Victoria Junior Chamber of Commerce, opens at Memorial Arena this evening at 6 for a week of fun, frolic and general interest. Getting a preview of one of many colorful exhibits when photographer called at busy arena this morning, were H. T. MacGregor and little daughter Diane. Among other attractions at the fair will be high-wire artists "The Daring Madisons" who will give two "big top" shows daily.

B.C.'s Demands Met By Ottawa

Federal Authorities Agree to New
Terms for Livestock, Meat Imports

British Columbia's "get tough" policy with Ottawa on the troublesome foot-and-mouth disease issue has brought results.

PLAGUE HITS ANOTHER HERD

REGINA, May 5 (CP).—Foot-and-mouth disease spread to a third Weyburn district livestock herd during the week-end and 111 animals were shot and buried. Today federal veterinarians hoped to begin disinfecting and cleaning up operations.

Twenty-two head of cattle and 89 hogs were destroyed in the latest outbreak on a farm about five miles south of the original Weyburn infection and four miles from the town. Weyburn is 75 miles southeast of Regina.

Early morning reports said some of the prisoners had drunk hair tonic and rubbing alcohol stolen from the barber shop and infirmary.

No Progress

MUNSAN, Korea, May 5 (AP).—Allied and Communist truce delegates produced no signs of headway in an 11-minute secret session today. It appeared that both sides had run out of things to say in the Korean armistice deadlock.

Some airlines immediately planned to trim or consolidate schedules. The air force began cutting down training flights last week in an effort to conserve gasoline reserves.

The rest of the United States began looking to reserve supplies. There was no great slackening of transportation—private or commercial—and no widespread rationing as such.

Motoring was not curtailed, voluntarily or otherwise, on the week-end.

The strike, called by 22 A.F.L., C.I.O. and independent unions, shut down roughly one-third of the country's refineries and cut gasoline supplies by about the same amount.

Reserves were estimated last week as sufficient for 45 days at normal consumption.

The Leader-Post in a sports page story today says Edmonton Eskimos of the Western Football Conference have signed Johnny Lujack, former Chicago Bears' quarterback.

The Leader-Post says it was told Lujack signed for \$15,500 with an Edmonton firm paying part of the salary.

Frost on th' pumpkin may be all right, but Saanich don't like it on their strawberries.

Feller tells me they got a new political slogan over in West Germany: "Adenauer, an' keep us on summer time."

B.C.'s lettin' in th' beef, an' avoidin' th' beefin'.

Credit Regulations Will End Tuesday

Schumacher Has Big Edge in State of Hesse

German Vote
Rejects Arms

WIESBADEN, Germany, May 5 (UP).—The Social Democrats, bitter foes of West German rearmament, have scored a resounding victory over Chancellor Konrad Adenauer's coalition forces in local elections in the State of Hesse, official results showed today.

The balloting was considered a gauge of popular support of the government's program to provide 12 German divisions for integration into the European army for defense against Communist aggression.

Official preliminary results out of more than 2,000,000 votes cast gave the Socialists, headed by crippled Kurt Schumacher, 38.5 per cent of popular vote—more than the combined total of all three government Coalition parties. The latter include Adenauer's Christian Democrats, the Free Democrats and the German Party.

HOW COUNTS WENT

The results included: Social Democrats, 855,897 votes (38.5 per cent); Christian Democrats, 394,137 (17.7 per cent); Free Democrats, 331,027 (14.9 per cent); German Party, 59,388 (2.7 per cent); Refugee Party, 208,091 (9.4 per cent); Communists, 92,624 (4.2 per cent); others 297,022 (12.6 per cent).

It was the second local balloting in Hesse since the war. In 1948 the Socialists polled 33 per cent, the Christian Democrats 22 per cent, the Free Democrats 9 per cent, and the Communists 6 per cent.

The balloting was to pick more than 25,000 municipal and county officials to serve until October, 1956. No incidents were reported, although the Communists and numerous strongly nationalistic ex-Nazis staged vigorous campaigns.

Local issues were dominant, but the elections gave an indication of how Germans in the cities and farms of the western state felt about seeing armed Germans in uniform again.

HEAVY FROST

Strawberry Crops Facing Some Danger

A heavy frost early this morning in low-lying areas of the Saanich peninsula gave strawberry growers some concern over the future of their 1952 crop.

Only a few plants as yet are in full bloom and with blossoms facing the sun, the stage at which they are most vulnerable to frost damage.

The crucial period will begin within from 10 days to three weeks, depending on the location and exposure of the crops.

No frost was noted in some sections of Saanich and the peninsula, but in portions such as Sluggert Valley the frost was heavy.

Growers' representatives pointed out that plums, pears and apples could be "nipped" by the frost, but that no reports of damage had been made to date.

Possible damage to fruit blossoms in the Keating region Sunday by a sudden hail storm, followed by heavy rain and more hail.

According to the weatherman there will be frost again Tuesday morning, since the forecast indicates clear skies tonight and a predicted low temperature at Gonzales Observatory of 38 degrees. He did not expect a killing frost, however.

Tuesday will be sunny with light winds and a maximum temperature of 60 degrees.

'DEUTSCHLAND LIED' ANTHEM BROUGHT BACK

BONN, May 5 (AP).—The "Deutschland Lied," with its refrain of "Germany Above All" (Deutschland Über Alles) is to be restored as West Germany's national anthem.

An official announcement is expected soon by President Theodor Heuss. Allied High Commission officials said they would offer no objection.

Although never formally banned, the anthem, long associated with German imperialism, has been frowned upon by Allied authorities, and it has not been used officially by the Germans since the war.

Ontario Man Appointed as Anglican Dean

Canon Beattie
Here in July

Canon Philip Rodger Beattie, 42 and unmarried, is believed to be the youngest man ever appointed to the post of dean of Christ Church Cathedral here.

Archbishop Harold E. Sexton announced the successor to Bishop G. R. Calvert, former dean, on Sunday.

Born in Barrie, Ont., Canon Beattie received his B.A. degree from the University of Toronto in 1935, and L.Th. from Wycliff College in 1936.

From 1936 to 1940 he was general secretary of the Student Christian Movement of Canada, from 1940 to 1947 was rector at Sudbury, and in 1947 was appointed to St. George's Parish in St. Catharines. He was also honorary canon at St. Luke's Pro-Cathedral, Saint Ste. Marie, from 1947 to the present.

He expects to begin his new duties here during the first week in July.

Canon Beattie was in Victoria last September for the General Synod of the Church of England in Canada, and it is understood he made a brief visit to the city a short time ago.

Store Planned

NEW WESTMINSTER, B.C., May 5 (CP).—Woodwards Ltd. will start construction of a \$3,000,000 department store here this fall, it was announced today.

W. C. Woodward, president, said today about 20 homes now on the site would be torn down. The two-story building will have parking accommodation on the roof as well as space for 500 cars nearby.

STUNNED BY TRAGEDY

Widow of Caledonia Ave. Blaze Victim Tries to Make Life Over

By RON BAIRD

The last words Albert F. Garnot spoke were "see you tomorrow."

A short time later, firemen found his body lying in the ruins of his blazing home Saturday night at 1121 Caledonia.

Today, his slightly-built widow returned to her flame-seared home to try and recover a few of the remaining possessions of a once-happy family.

She found a terrified cat, which had stood a lone vigil over the weekend in the blistered and blackened ruins of the small, frame home on a quiet city street.

She found the charred remains of photographs, showing a happy family. And she found the aftermath of tragedy that had robbed her and her children of a war-veteran father who didn't go out Saturday night because he "wasn't feeling well."

She sat in the living-room of a next-door neighbor today and recalled how she had left her husband to go to the Crystal Garden Saturday night with her small daughter, seven-year-old Patsy, to attend a Pro-Rec demonstration.

Her daughter, Grace, 16, had left the house a bit later. There is a third daughter, Mrs. Frances

Stores, Shoppers Free To Decide Own Terms

OTTAWA, May 5 (CP).—Canada's 17-month-old credit restrictions will end Tuesday, freeing stores and consumers to strike their own bargains on long-term buying.

Finance Minister Abbott announced the move today a few minutes after the Bureau of Statistics reported the third monthly drop in a row in the cost-of-living index—to 188.7 from 189.1.

Mr. Abbott said the legislation on which the regulations were based will be kept on the law books in case the controls have to be brought back in. Parliament would be asked to extend the legislation for a further period even though there now are no plans to use it.

Dealers Welcome News

Local dealers today hailed the disappearance of credit restrictions on major household appliances as "tremendous relief" to their business.

The down payment provisions were much too high for the average buyer, dealers said unanimously, and sales of washing machines, radios, refrigerators, stoves and other heavy items had been slowed to a crawl in recent months.

Manufactured goods had piled up, unsold, in warehouses across the country, distributors here claimed. The recent budget relief of lower excise taxes had "helped a little," dealers said, but the main stumbling block to lagging sales had been the high down-payment terms.

Buyers could now obtain large appliances on an outlay of \$100 or more with down payments of only 10 per cent of the total price, one major retailer of appliances said.

"Watch us move some of that stuff now," an excited merchant chortled. "We intend to move them if we have to mark them at cost."

Merchants also welcomed the wiping out of the credit curbs on so-called luxury items as the cure for many "harmful practices" which had crept into retail trading in recent months. Give-away trade-in values and other devices were all devised merely to get around the down payment regulations, dealers said.

Car dealers were particularly jubilant, anticipating a considerable impetus in the sale of used cars, which have been moving slowly off city lots.

Some retailers viewed the move more cautiously. One saw the lifting of restrictions as "a tremendous blow to the big dealers, who can finance on very easy terms, but the smaller dealers will be handicapped."

"Those dealers who have been unwilling to give unlimited credit have been aided by the restrictions, they will have to meet terrific competition now," he said.

Barley Humber of Humber Bros. Furniture Store: "I think it's love-ly. It's just too bad they didn't do this a long time ago. It's too bad that they wouldn't act until the merchants business of offering \$150 for an old broom to get around the government regulations. That was in direct defiance of the government order. Just like smuggling. It's too bad the stores had to wield such a club over the government's head. But they did it just for survival. As far as the result is concerned, I think it's swell."

J. McGregor, manager of McLennan, McFeely & Prior: "I think it will be a very good thing. I anticipated they would do this when Abbott brought down his last budget. I was rather disappointed when he didn't. But this is good news. It will be good for business and good for the customers, too."

J. Courtney Haddock, manager of Woodward's Store: "I think it will be a very good thing. It will stop this ridiculous practice of offering a fabulous trade-in on an old, broken cup and saucer. We never went in for that but a

15 Manitobans Lost, Fishing

WINNIPEG, May 5 (CP).—Police today expressed fear for the safety of 15 sportsmen missing in the Whiteshell district, 80 miles east of Winnipeg.

The men, members of separate fishing parties, were believed on their way to High Lake, a trout fishing area which was lashed by high winds during the week-end.

ALBERT F. GARNOT
... fire victim.

scorched walls, clothing and burned up most of the furniture. Garnot, a pensioned veteran of the Second World War and employee on a Department of Transport ship here, was 46.

The Garnots had lived in the Caledonia Street home for 12 years—today they are staying with the Harrisons next door.

Mrs. Garnot, still stunned by the tragedy, said she carried about \$1,500 insurance on the furniture and \$1,000 on the house itself.

She spoke quietly, trying to put together the plans for a future—she intends going back to live in her home after it is redecorated.

As she talked, her cat bounded across the room, still frightened by a week-end vigil in its fire-blackened home. Another cat was burned to death—a dog, Skipper, was saved.

Firemen returned today to the home to inspect it.

So did Mrs. Garnot. She carried out some bedding and other household effects, then went back to the neighbors to try to start a normal life over again.

Her friend, Mrs. Harrison, had only one question to ask.

"Why did all the people drive stand it. Most of them had never heard of this street before."

ON THE TIMES

By ART STOTT

Every now and then, when Hollywood looks back over its shoulder in films based on the industry itself, the "Jazz Singer" is dragged out again. Al Jolson is given credit for trail-blazing the talking picture route in that number. And every time it's mentioned, I go back in memory to my first viewing of it.

Stott

The theatre wasn't very big. The equipment wasn't very good. Periodically throughout the film the sound would whistle off somewhere. Jolson, with his big white mouth in his black face, would appear on the screen, apparently Jolsoning. Maybe he was singing "Mammy" at the time. All that came through the amplifiers was "Whee-whuzz-riddle-diddle-whee." Then there'd be a moment's silence followed by an explosion of laughter from the theatre patrons, Jolson would be up there making with his lips soundlessly, and we'd be down in the audience busting a guttural howling at him. That was okay by me. I was never a Jolson fan.

I don't know why it's so funny when a film has a flaw in the sound track, when the screen shows someone talking or singing and the only accompaniment is absolute silence. I don't know why it's funny. But it is.

Up to last week I'd never given it a thought. Last week my sound track went west. I'd try to talk. No sound would come—or it would come in an octave-jumping routine that convulsed my friends.

"Haw-haw," they'd say. "laryngitis, eh? Haw-haw, ho-ho, hee-hee." Funniest darn thing they'd ever heard—the stupid oafs.

I Say, Are You There?

There are certain disabilities to an on-and-off voice—particularly on the telephone. The temporary owner of one can't help feeling a bit embarrassed when he picks up a receiver and finds himself saying, "HU-LO" or "hu-LLO." It startles the person at the other end, particularly if he or she can get no further conversation at all after that first greeting.

Still, in the face-to-face interchange, it's not so bad. Pantomime will do a lot for a man who's lost his voice, and if he can whisper at all, he can usually get his message across. It looks a bit conspiratorial when he's in conversation and the listener leans forward to catch his words. The whisperer will notice, too, that other people start edging in, ears cocked, to pick up the odd remark. Making it hard to get increases the popularity of his talk.

It isn't just a matter of people believing that good things come in small packages, when the voice volume is cut down. There's an almost irresistible inclination in humanity to try to get in on a secret. Whispers and the crowds will try to listen. They'll think you have something confidential to say, or are relaying a new one that can't be told out loud in the hearing of women and children.

Human Curiosity

You can develop the same crowd reaction if you stand on a busy sidewalk and look fixedly at the upper windows in a high building. Just keep looking up there intently, and folk will flock around just to look—afraid they'll miss something if they don't.

If you talk to men with a philosophical turn of mind about your lost voice, they'll impress upon you the treasure thrust your way—the great gift of silence. One man I know confided to me that he had gained quite a reputation for wisdom merely by keeping his mouth shut when others were sounding off. "Just keep your lips together, drop one of your eyebrows and smile ever so gently," he said. "Try it and you'll find others saying you're too smart to keep running over at the lips. They get the idea that you know something and that you're clever enough to keep it to yourself."

The technique might work with my friend and some of my other acquaintances, but not with me. A pose like that has to be maintained fairly consistently. Silence, once in a blue moon, isn't effective with me. It just doesn't fit. When the great gift is thrust upon me, everyone knows something's wrong. Nobody's being kidded. The reaction is universal, honest and correct: "What's the matter with old Blabber-mouth? He got laryngitis?"

Defense Jobs Boosting Courtenay's Employment

COURTENAY, May 5—Defense contracts in this area continue to provide excellent employment opportunities, according to the Unemployment Insurance Commission.

Most of the work available is in the construction trades. Although opportunities are still good at Campbell River, where recent minor layoffs at Duncan Bay were absorbed by Campbell River and Courtenay contractors, a surplus of carpenters is developing at Campbell River.

Lack of suitable accommodation in the district, however, is having a depressing effect on recruiting of outside labor, according to H. W. Fullard, commission manager. His office maintains a

housing registry to assist new arrivals.

"Trailer accommodation seems to be the immediate solution at this time," he said.

Present buoyant conditions are not prevailing in the logging industry, he said. While most regular crews have been rehired, there is no noticeable increase in hiring of outside labor, and a number of fallers have been laid off, partially because of a surplus of felled timber and current market conditions.

REDS' SUB FLEET MIGHT BE MENACE

Hitler's Comparatively Feeble Sea Arm Nearly Strangled Allies, Mainguy Warns

Russia's naval building program is reported to call for construction of 1,000 submarines, Vice-Admiral E. R. Mainguy, chief of the naval staff, told a Canadian Club luncheon in Vancouver today.

"In the last war, Germany, starting with only 60 submarines, nearly strangled us," he said. "If the German rulers had realized how useful a weapon the submarine can be, they would have entered the war with more."

"If there is ever a third world war, I think it is only prudent to assume that the Russian rulers aren't going to make the same mistake."

Admiral Mainguy said that the submarine, with its improved weapons and equipment, determines the shape of the Canadian Navy today. He outlined plans for expansion to a 100-ship navy, including destroyer escorts designed specifically to deal with the modern submarine.

FREE SEAS VITAL

"Our Canadian economy is enormously dependent on the free passage of merchant ships across the oceans of the world," he stated. "Canada is not self-sufficient—we need raw materials in large quantities."

"For a very large and very important quantity of critical materials, such as bauxite and manganese ore, we are dependent for supply on other people in foreign lands."

Admiral Mainguy said the firm basic objective of the navy was to place itself in the forefront of the world's experts on anti-submarine operations.

Police Split Long May Day Parade in 3

VANCOUVER, May 5 (BUP)—Vancouver police broke up a seven-block long May Day parade in Vancouver into three sections Sunday.

Officials of left-wing groups sponsoring the demonstration complained that the police action made the parade look like an "unorganized group of stragglers."

More than 5,000 persons heard speakers at Lumberman's Arch following the march from the post office in downtown Vancouver.

Police said their action in breaking the parade into sections had been criticized as an attempt to detract from the effect of the floats and banners in the parade.

After speeches calling for higher wages, and an independent trade policy for Canada, the gathering was urged to attend the May 18th Peace Arch rally where Paul Robeson is scheduled to speak.

Paravox Hearing-Aid

Sounds come through clearly with two crystal microphones in the top. No clothing-rustle to interfere with good reception. The Paravox is tiny, only 1½ inches wide, yet has amazing power and natural, balanced tone. See it. Hear it. . . . without obligation.

TRACK STRIKE HITS CHICAGO

CHICAGO, May 5 (AP)—This was raceless Monday for Chicago turf fans with Sportsman's Park strike-bound, the first such tie-up in the city's thoroughbred racing history.

Horse owners struck, refusing to file entries for today's program. They are asking for 50 per cent of the track's mutual share.

Track president William H. Johnston has already boosted purses from an original guarantee of a \$16,000 daily minimum to \$24,900. He said that if owners fail to race they will be sued for damages, including all profits the track otherwise would have made.

The opossum is a member of the marsupial order, animals that keep their young in a pouch until they can fend for themselves.

Top U.S. Military Leaders Feel Russia Not Ready for All-Out War

By ELTON C. FAY

WASHINGTON, May 5 (AP)—A growing impression among top United States military leaders that Russia won't launch a hot war soon appears based partly on a belief that she needs more time to ready her armed forces and economy.

This is in addition to more obvious reasons, including the improved condition of the mutual defense set-up in western Europe, and the bald fact that Russia has been doing exceedingly well with a cold war of subversion, pressure on weak countries and promoting a "little" war in Korea.

Over the week-end Gen. Alfred M. Gruenther, chief of staff of the combined western defence forces in Europe, pointed up what he and others had said before.

He expressed belief that the Russians will not attack this year or atomic stockpile of the U.S. in the near future.

Gen. Omar Bradley, chairman of the joint chiefs of staff, has Europe. But he added: "We commented that among the Russians have had for perils intend to do."

SAME FAMILY SAME LOCATION 90 YEARS

HERE, THERE AND EVERYWHERE

Condensed from CP, AP, and UP Dispatches

FLOODS—The water level of the Jordan River dropped one foot today, promising possible relief to the flood-stricken west side which has been almost completely evacuated.

Officials said 1,465 families have abandoned homes and other buildings since the flood began. Melting mountain snow caused the deluge.

TAFTMAN—Lt. Gen. Albert C. Wedemeyer announced in Washington today he has accepted chairmanship of a national citizens for Taft committee.

He said he based his acceptance on the urging of "numerous prominent Americans" including Gen. Douglas MacArthur.

ZOOT-SUITERS—Vancouver gangs of zoot-suiters and soldiers were blamed today by their victims for two vicious assaults during the week end.

Fred Ritchie received hospital treatment for cuts and bruises after four zooters attacked him on a downtown street less than a block from the police station. Stanley Ingram told police four soldiers slugged and robbed him of \$60 in a lane.

MYSTERY—The mystery of the church doors at Vallejo, Calif., that wouldn't stay locked was solved today. Police arrested an air force lieutenant who said he had lived for three weeks in the belfry of Vallejo's Seventh Day Adventist Church.

The officer who turned the bell tower into a penthouse—complete with radio, electric heater, food and blankets—was booked as Clarence B. Wigley, 23. Wigley faces court martial for desertion.

Rev. J. J. Dollinger said he had been hearing strange noises, "like somebody walking," from the belfry for months.

C.G.L.U. Semis Billed Friday

Semi-annual round of the Canadian Ladies Golf Union two-ball foursome competition will be played at Uplands Golf Club Friday.

Draw follows:
CHAMPIONSHIP FLIGHT
11:00 a.m.—Mrs. D. Dowell and Mrs. R. C. Cline.
11:30 a.m.—Mrs. Threlwell and Mrs. W. Watson vs. Mrs. G. Robinson and Mrs. V. Painter.

FIRST FLIGHT
11:15 a.m.—Mrs. Wilson and Miss M. Campbell vs. Mrs. Butler and Mrs. J. Stuck.
11:30 a.m.—Mrs. W. Fisher and Mrs. G. Ellis vs. Mrs. Brown and Mrs. Vardley.

SECOND FLIGHT
11:20 a.m.—Mrs. Brown and Miss M. Mahoney vs. Miss P. Bailey and Mrs. G. Harris.
11:35 a.m.—Mrs. J. Clark and Miss L. Verrill vs. Mrs. A. Swan and Mrs. Robinson.

THIRD FLIGHT
11:30 a.m.—Mrs. Wilde and Mrs. Sumner vs. Mrs. H. P. Crowe and Miss R. Jones.
11:35 a.m.—Mrs. A. Phipps and Mrs. J. R. I. Edwards vs. Mrs. W. Erickson and Mrs. E. Bramley.

FOURTH FLIGHT
11:40 a.m.—Mrs. N. Bamford and Mrs. C. Hazell vs. Mrs. J. J. Schane and Mrs. Riedel.
11:45 a.m.—Mrs. E. D. Todd and Mrs. P. Perry vs. Mrs. Hunt and Mrs. Haynes.

FIFTH FLIGHT
11:50 a.m.—Mrs. Galbraith and Mrs. C. Richards vs. Mrs. H. Husband and Mrs. Hader.
11:55 a.m.—Miss Mahoney and Mrs. E. Jackson vs. Mrs. H. T. Webb and Mrs. Worthington.

Wrens Flying East For Summer Course

Fifteen Wrens of the local naval reserve division, H.M.C.S. Maikhat, have registered to be flown east this summer for training at H.M.C.S. Cornwallis, N.S.

Courses last 12 days, starting June 2 and concluding Aug. 25. Local girls registered are:

June 2—Wrens G. C. Brock, N. Farmer, E. A. Patterson, E. Mitchell and P. S. Wilkinson; June 16—Wrens J. Sidwell, P. Hearle, M. Millard; June 30—Wren J. Bayliss; July 14—Wrens J. Wardhaugh, D. I. Smith, M. E. McCall; Aug. 11—Wren F. I. Martin; Aug. 25—Wren F. M. Duke.

ORANGE PIONEERS

Orangeism appears to have been introduced to Canada about 1820 and a Grand Lodge for British North America was formed in 1830.

MEMORIAL

Envoy Pays Tribute to Our Dead

BERGEN OP ZOOM, The Netherlands, May 5 (Reuters)—Diplomats from east and west, including Russia, gathered at the Canadian military cemetery today to pay tribute to men of the Dominion who died during the liberation of Holland in the Second World War.

The occasion was the seventh annual Canadian memorial service.

Pierre Dupuy, Canadian ambassador, paid tribute to the Canadians "comrades-in-arms from other countries who served under Canadian command and whose national flags now are flying near the cross of sacrifice."

Dupuy said it was his last memorial service here, since he is leaving for Rome later this month. He thanked the Dutch government, army and civilian population for their care of the graves.

A message from Lt. Gen. Guy Simonds, chief of the Canadian general staff, was read by Brigadier R. W. Monzel. It congratulated the Dutch people on "the indomitable spirit which sustained them during the war years and is still with them and being reflected in their reconstruction work."

C. Staff, Netherlands' defense minister, recalled that today was his country's official liberation day, and said the war had formed close ties between Canada and Holland.

They arrived late in April in a B-29 Superfortress, with the help, they said, of two airmen friends.

Pakington Street—is one of several streets in Fairfield which were named after widely-known Englishmen who never actually lived in Victoria.

Sir John Somerset Pakington, the first Baron Hampton, lived from 1759 to 1880. He was secretary for war and the colonies in the British Government under Lord Derby in 1852. He was First Lord of the Admiralty in 1858 and again in 1866. He was secretary for war in 1867, retaining that office until Disraeli's resignation in December of 1868.

From 1837 to 1874 Pakington was Conservative member for Droghda in the British House of Commons.

Sticks to Charges

A former United Church minister, James Endicott, seen with his wife in Toronto following their return to Canada after a four-month visit to Communist China. He refused to answer questions by reporters on statements attributed to him by the Communist press that Canada was breeding germs for military use by the United Nations in Korea. He did, however, stick to his charges that the U.S. Army is using germ warfare.

9 Seamen Survive 33 Days in Small Boat After Salvage Try

SINGAPORE, May 5 (Reuters)—Nine Filipino seamen told today how they survived 33 days on a starvation diet of raw fish after a typhoon smashed their small craft while they were trying to salvage a United States submarine.

Eleven of their shipmates are believed lost. The survivors reached here today in the British tanker Nassa, which picked them up as they faced slow death on a South China Sea reef, 46 miles west of the Philippine coast.

Their skipper, Leoncio Fernando, 63, said they were trying to salvage the U.S. submarine Bart, wedged on a reef since 1943. When the typhoon blew itself out, the survivors lived first in the submarine, half submerged, then on a raft built from the wreckage. All their stores were gone or ruined. The Nassa picked them up six days ago.

U.S. ELECTION SPEEDUP

Preference Primaries in Many States Will Hold Interest of Both Parties

WASHINGTON, May 5 (AP)—One of the busiest weeks of the political year to date gets off to a running start today with the Maryland preferential primary.

Maryland voters nominate senators and members of the House of Representatives, and elect delegates to state conventions which in turn will name 24 Republicans and 18 Democratic delegates to the national conventions.

With write-ins banned, voters have but one chance to cast ballots for a presidential aspirant—Democratic Senator Estes Kefauver of Tennessee, the only presidential hopeful listed.

In a few scattered sections Republicans may ballot on delegates who have openly endorsed Dwight D. Eisenhower for the Republican presidential nomination.

However, Maryland's 24 Republican delegates—when named—are expected to follow the lead of Governor Theodore R. McKeldin. The governor has dropped broad hints he may back Eisenhower, but also has encouraged followers of Senator A. Taft of Ohio to believe he may endorse their man.

During the week Democrats will name 180 national conven-

tion delegates, the Republicans 78. Preference primaries—some of them popularity-polls—of purely state importance—will be held in Florida, Alabama, Indiana and New Mexico. State conventions to select delegates are set for Kentucky, Illinois, Nevada, Utah and Michigan.

Major interest centres on Florida's Democratic presidential preference primary test tomorrow between Kefauver and Senator Richard B. Russell of Georgia, the state's first such primary in 20 years. It is purely a popularity contest. Delegates will be chosen later.

Taft's home state of Ohio tomorrow will select 56 Republican and 54 Democratic dele-

gates. Taft can count on most of the Republican delegates, although Harold E. Stassen of Minnesota is opposing him on the Democratic side.

Nancy Hodges' Dictum

SOME OF THE WISEST ADVICE given to British Columbia in the present election campaign comes from Mrs. Nancy Hodges. She told the recent Liberal party convention that at some time everybody has to pay for what he gets and that the Liberal party had come in the case of hospital insurance.

There never has been any doubt about Mrs. Hodges' position in the Liberal party or on the insurance issue. It was she, more than any other individual, who assured the election of Mr. Johnson as party leader in the first place after his close contest with Mr. Wismer.

That was a good day's work, for which Mrs. Hodges is entitled to the thanks of all British Columbians. Since then she has never wavered in her loyalty to Mr. Johnson, has lately stood with him against the decision of the latest Liberal convention to emasculate and, as Mr. Johnson said, to wreck the insurance scheme.

When Mrs. Hodges is reelected, as no doubt she will be, no one need expect her to vote for a policy which she and her leader have publicly condemned as ruinous. The same, we suppose, may be said of Mr. Strath and Mr. Proudfoot, who also are loyal to Mr. Johnson and have always opposed the attack on the insurance scheme.

Some readers may perhaps ask why this newspaper, unlike those published in Vancouver, regards the insurance scheme as so important. It may be said that the changes in the scheme recommended by the Liberal convention, and in still larger measure by the C.C.F., will cost the provincial treasury only a few million dollars (the exact amount being incalculable). It may be argued that these changes are popular and that politicians, therefore, should obey the public will.

This reasoning is unsound for four specific reasons.

First, on the word of Mr. Johnson, its architect, of the official administering the scheme and of impartial outside experts, the abolition of co-insurance will wreck hospital insurance in the end.

Second, the provincial treasury is not in a position to assume huge new costs. On the contrary, the changing economic climate of British Columbia, the threatened loss of foreign markets for timber, fish, apples and other products, all suggest that the treasury has assumed the largest load which it can safely carry during the next few years. Mr. Johnson apparently thinks that a revised insurance scheme would involve new taxes. Is British Columbia prepared to pay higher taxes when federal, provincial and municipal governments are

ready are taking about a third of the average man's income?

Third, and more important, the attempt to disguise the true cost of hospitalization and thus inevitably to increase it, represents, in a local version, the primary threat to the democratic process.

Democracy everywhere has undertaken the burdens of the welfare state and slowly, painfully, is learning to manage them. If it is to succeed in controlling the new society which it has built it must always understand what it is doing. Otherwise, if the costs and the responsibilities are hidden, if the public is deceived, then the burdens increasingly piled on the state can crush it as they very nearly crushed the British state.

The first test of a democratic government, whatever its ideology may be, is its candor and honesty with the electorate. Mr. Johnson is an important figure in Canadian politics today because he stands for this candor and honesty, because he refuses to disguise the facts and because he sees where any other policy will ultimately lead. It will lead to the destruction of those very reforms which he and those who think with him desire.

Fourth, the theory that every candidate for office must always bid for votes by advocating a policy in which he does not really believe is not the theory of our parliamentary system but the denial of it. In his classic definition of that system (which is recommended reading to all candidates in this election) Burke said that a candidate for parliament must always weigh carefully the opinions of his constituents but that the responsibility of decision when he is in parliament is his own. He must decide his course on the facts as he sees them and not on the pressures at home. If the electors are dissatisfied they can choose a new representative at the next election.

Every candidate for office in British Columbia is or should be in Burke's position, the only honorable position in our system of government. That is to say he should stand, as candidates like Mr. Johnson and Mrs. Hodges stand, for what he believes right, and not necessarily for what he thinks momentarily popular. He should have faith in his own beliefs and in the ability of the voters to understand the facts, if the facts are given to them. And he should not wish to be elected on any other basis.

Assuredly if he believes the facts as set forth by Mr. Johnson he should not wish to be elected and then to face an unmanageable insurance scheme, higher taxes or a gutted treasury.

Labor Pains of an Economy Budget

THE CITY COUNCIL HAS HAMPED an economy budget. The process has been painful. Not only firemen have been hurt. But it is an economy budget. That is what the council set out to achieve.

As part of the deep surgery that has been effected, a specific wage policy appears to have been established with the fire department used as an example. The firemen benefited from an arbitration award which gave them almost what they asked for. The council has accepted it and has counter-balanced the increase in that account with a plan to lop off personnel and close one station.

Another course might have been followed. The mayor and aldermen could have sent the fire department estimates back to the committee with instructions to reduce them by a fixed amount—say \$35,000, as Alderman Brent Murdoch suggested. The majority refused to accept that proposal. By taking the course it did, the council has expressed itself bluntly on the wage question. In effect it has told the firemen that there is a reply to union negotiation and arbitration, and that the power to give that reply rests with the council.

That attitude is not calculated to please labor. By adopting it the council members have turned their backs on measures to ingratiate themselves with

the unions. That is a gesture quite at variance with the usual political approach to unionism. Its frankness and honesty, at least, deserve commendation. The mayor and aldermen have not sought an easy way out of their problem and they have set a policy which could be a guidepost in future negotiation.

If the policy is contrary to the wishes of the people, the people may change it at the next two elections.

The council has made no bid for the friendship of special groups in its decision to eliminate charitable aid grants. Some hardships will arise inevitably as a result of the city's stance on this matter. Again the position of the council has been stated frankly. That position spells out the council's belief that charity begins with the taxpayer on his tax bill.

Disappointment and anger have doubtless been caused by the city's budget surgery. The knife has gone deep and no anaesthetics have been administered. The city faced a big jump in costs in its "provisional budget." Wage increases alone were originally listed at the equivalent of seven mills above last year. That amount could not be sliced down without pain to someone.

The future will show whether or not the knife has cut away fat only, or has penetrated to inflict fatal injury on vital parts of the body corporate.

The Advance of Mr. Bevan

ON THE SURFACE AT LEAST MR. Aneurin Bevan continues to make progress in his campaign to capture the British Labor party. He has received the support of the Union of Shop, Distributive and Allied Workers, with its 350,000 members, the sixth largest union in Britain.

Only one member of the union spoke against Mr. Bevan but he spoke effectively. Mr. Alfred Roberts, a former member of the Attlee government, observed that in February, 1951, Mr. Bevan strongly advocated that government's rearmament program which he denounced two months later. Nevertheless, for all his inconsistency, Mr. Bevan carried the day.

This does not mean that he can carry the Labor movement at large when he reaches the decisive test of its September conference. He is still opposed by the strongest trade union leaders, who are loyal to Mr. Attlee and his moderate lieutenants. It has been very easy for Mr. Bevan to attract support when he

is merely condemning the Churchill government by purely negative criticism, much of it reckless and inaccurate. It will be a different story when the Labor party has to frame a new policy of its own.

Mr. Bevan has recently written a rather turgid and bombastic book called "In Place of Fear," which is supposed to outline his alternative to the policies of the government and of the Labor party. Apart from the questionable assumption that Russia is not really dangerous, Mr. Bevan's book does not contain anything of note behind the adjectives.

Like the rest of the Labor party he can profit by the discontents of a hard-pressed people but now that the magic of nationalization has been so badly damaged by experience he lives in an ideological vacuum. And surely nothing can be quite so ironical as the opposition blaming the government for Britain's present plight when the acute phase of crisis had begun under Mr. Attlee long before Mr. Churchill took office.

100 Years of Craft Unionism

ELSEWHERE IN THIS NEWSPAPER is reproduced a brief outline of the International Typographical Union's 100 year history. Publication of these highlights marks the centenary of its founding on May 5, 1852.

To unionists and to the public in general the document is interesting reading. It presents, in capsule form, progressive steps made by members of the craft in the long march to its present position of respect.

Among the developments sketched in the summary are several social improvements — measures introduced by the

I.T.U. to take care for its aged and infirm, to furnish pensions for those who have given years of service to the craft, and to protect the health of those engaged in it.

As their union observes its 100th birthday today, printers print with quiet pride to the fact that "it's 89,639 members still hold to the 100-year-old principles and practices which have made the International Typographical Union a great social force for progress and betterment, as well as the oldest and most democratic trade union in the world."

On the record, there are sound grounds for that pride.

Chips Off The Old Brock

By DAVID BROCK

EVERYONE should be deeply interested in any sign that the better universities have much in common the whole world over. The following private dispatch from the world-famous University of X happens to come from a little bit north of South Carolina.

But it could come from almost anywhere, for in these matters we are one great brotherhood. And when I say brotherhood, girls, I include sisterhood. Indeed, the University of X is entirely for women, though some of them appear to belong to some strange third sex while studying to become doctors or lawyers.

MY letter was from a member of that college's board of visitors. "I wish," says she, "I could drop in and tell you some of the more comical things that have happened lately about the new Residence we are building."

"One day, in making a tour of the new dormitory wing, I found some ornamental stones. One had an open book carved on it, and chiselled into its pages was this motto: 'Life begins within me.' True enough. But as a decoration for a young ladies' dorm, it offered too great a chance for ribald comment. I asked whose idea it was, and discovered that the professor of oceanology had requested permission to 'design' some of the stones which had been ordered by the architects with more conventional decorations... squiggles, mainly."

"SHE'd done a couple of signs of the Zodiac which weren't too bad. And a couple of Greek letters, which I think must be Alpha and Omega but they both look like Alpha, or like wishbones or eyes-without-hooks. There are some notes of music, which may stand for the fine arts, or for girlish laughter, or for ballroom dancing. There is a burning bush, only it isn't burning; it just grows long cucumbers. There is the university crest, looking oddly normal amidst all these goings-on. And there are two ghastly goddesses, with poodle haircuts and chic modern dress. One of them looks like Justice, since she carries a balance, but she has no handgrip over her eyes, and instead of a sword she uses a pigeon... I've heard of swords being beaten into ploughshares but hadn't realized the criminal courts were now going in for pigeon pie and peace and billing and cooing. Or is it a stool-pigeon?"

"THE other goddess is holding an anaemic and premature baby draped over one arm. With her free hand she holds aloft a Roman lamp, flaming full blast. What with this baby plus the 'Life begins within me' motto, I could just see the first issue of the students' newspaper next autumn. So last Saturday I was accessory to a spot of infanticide. I had the stone-cutter amputate the baby and substitute a chick. I had visions of laborious chip-chipping with chisel and mallet, but of course it's all done by electric drill in half a tick. The cutter improved the haircuts and the draperies. And there is no longer any motto on that book. But I still prefer the original squiggles."

WELL, as I say, this could be news from any half of learning in the process of getting itself suitably decorated. Decorated so as to give the young minds something to remember all their lives. Decorated with the Finer Things. Or at least suggestive of the finer things. And you cannot deny that no matter how horrible the carvings in themselves, they might make a sensitive student wish desperately for finer things. Finer than the carvings. So who can say the carvings failed, hm? I recently saw a photograph of Epstein's "Lazarus," which has been given to an English college. Lazarus wasn't the only one coming back to life in that picture. Peering through the chapel door at the statue was one of the college dons. His eyes were popping out of his head. It had knocked all the dreamy absent-mindedness clean out of him. Jolly good show.

MORE CARVINGS

AT our own University of B.C. there is not, as yet, much richly ornamented stonework. And there is never been, though it is foolish to predict fashions. But on either side of the library's doorway, carefully avoiding the range of the average eye, are two little jokes done by the masons, not by the architects. One shows a monkey named Evol and the other a fundamentalist named Funda. So faint is the carving that when I was a lad we thought Funda was named Tunda. Either this damp-looking creature was just down from the Tundra, or else he hid beneath his umbrella for fear of thunder. Thunder is often pronounced "tunda" in the wrong parts of New York, so why not here? We, who loathed our affected name of Thunderbirds, referred to him simply as de typical Tundaboid.

ONE TO MY OTHER SELF; OR, THE KNI-WIT

Come live with me and be my love
And we will all psychiatry prove:
Two brains within a single fit,
So schizophrenically knit.

MAY

"ALL Nature seems at work. Slugs leave their lair." (Coleridge). Call that work? Slugs are not only parasites, but slow about even that.

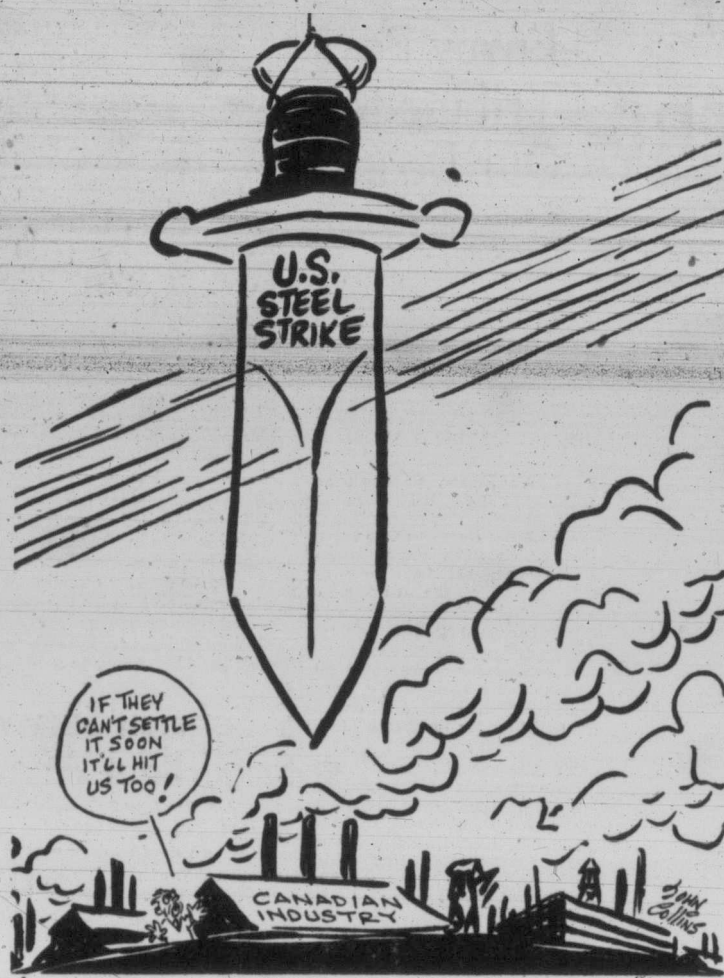

Why?

New York Times

Before we get too busy with other seasonal matters there are a few questions to consider. If a woodchuck in April is happy to eat meadow grass and wild herbs, why in June must he have garden peas, string beans, tips and burgeoning lettuce? Why do the biggest violets grow in the boggiest part of the bog? Doesn't chickweed ever winter-kill south of the Arctic Circle? Where does a wren get all its energy, and how does it keep from having a nervous breakdown? Or is that what agitates all wrens, a perpetual nervous breakdown? Why are the biggest night crawlers always around when you are spading a garden and never around when you might go fishing?

Some people say that sap flies and "no-see-ums" and allied gnats full of vernal hunger were put here to help feed the birds. Couldn't the birds possibly learn to eat something else? Or, better yet, to eat more gnats?

Under the Sword of Damocles

As Our Readers See It

ALTERNATIVE VOTING

With all due respect, the chief electoral officer's explanation re the voting in multi-member constituencies is not very helpful. All he does is to admit the limitations without any suggestion as to how to correct them.

Apparently there is no safeguard in the matter of the blanks when a "plump" vote is recorded, or a restricted alternative vote.

It would appear to be up to the government to look into these deficiencies and clear them up before election day.

E. W. ABRAHAM,
1125 Faithful Street.

PORTAGE INLET PROJECT

If Victoria must have a racetrack, surely it could be made several miles beyond the already well-established residential areas, which would be ruined by proximity to an amusement park.

From all accounts, tourists come to Victoria because of its quiet charm and beauty, so different from what they find in other cities. Why destroy this unique attraction by making Victoria as noisy and restless as the hundreds of cities they can more easily visit on the mainland.

RUTH W. ATTREE,
150 View Royal Avenue.

SEPARATE SCHOOLS

In reply to a letter by J. W. Cooper (May 1), I definitely agree it would be unfair to expect people of other religious beliefs to support Catholic schools.

Catholics want the education of their children to be permeated with the spirit of Christianity. Can there be any serious objection to this fact?

The only desire of the Catholics of this province is that the same percentage of their taxes which goes to support public schools should be diverted to their own schools.

According to the civic government, almost half the property tax is used to support the present school system. The Catholic taxpayer, following the dictates of his conscience, must pay \$100 or more per year to give one child the type of education he deems necessary for the child's spiritual well-being.

In Victoria there are about 900 students attending Catholic schools. According to one of the daily papers, about \$180 is needed to educate one child for one school year. In other words, this year and every year, Catholic schools save the citizens of Victoria over \$160,000.

And this is justice!

D. J. CAVIN,
241 Montreal Street.

TAX SUPPORT

I have just read the letter written by W. Fyfe concerning separate schools and appearing in the May 1 issue of the Times.

I, too, like Mr. Fyfe, strongly object to giving assistance to separate schools of a faith not my own. But I object also to having my tax money used to support schools to which conscience would not allow me to send a child.

Once and for all, I would like to point out, with due respect to Mr. Fyfe's point of view, that Catholics are not asking for the average taxpayer to support

their schools. They merely want their share of education tax to be used for their own schools.

Mr. Fyfe says that as a taxpayer he protests against the government being compelled to support so many schools unnecessarily. Again I would like to point out that the government of British Columbia has never in its history given any support to other than public schools and has consistently ignored the right of all parents to have a say in how their education tax money is distributed.

Lastly, I would like to point out that Catholics are not contemptuous of the public school system, which is very efficiently organized in the province. But apart from the elsewhere recognized prior right of parents to choose the type of education their children are to receive there is also the fact that separate schools would help to destroy any danger of stereotyping our school graduates and thus lowering standards as has undoubtedly happened in some parts of the United States.

The obvious solution to the problem is to incorporate Catholic schools into the public school system, as in England, making them fulfill all conditions normally fulfilled (i.e. approved curriculum, regular inspection, etc.) by public schools, the only difference being that the schools retain full control of their religious education.

M. P. MANSFIELD,
163 Bushby Street.

NO SECRET

For unadulterated servile pussyfooting has there ever been anything more outstanding than an appeal to Canadians to tone down the fact to Americans that the Canadian dollar is top of the world in the money market?

Recently we have had the picture of U.S. statesmen pointing to Canada as an example of good government, soundness, stability and balanced enterprise.

The truth of this is reflected in the rise of the Canadian dollar.

Now we are asked to keep it quiet. It might annoy U.S. tourists.

For years Canadians have crossed the line and without complaint lost from 3 cents to as high as 10 cents for every Canadian dollar they spent there. It has never strained the courtesy or friendship of the Canadian tourist or their U.S. hosts.

Pride in their own country should cause every Canadian to resent the appeal of the Victoria and Island Publicity Commission to soft pedal the striking indication of Canada's financial soundness and stability.

The rise of the Canadian dollar gives an opportunity to broadcast it to the world.

True, some U.S. visitors might feel a little annoyed at first, but what better opportunity could arise to let the world know Canada's status?

Imagine thousands of tourists returning to the U.S. and telling their thousands of friends "the Canadian dollar is now worth more than ours."

For the few tourists who are annoyed thousands will be impressed.

However, I suppose there are some who will never realize Canada long ago gave up the role of playing second fiddle in the American continental orchestra.

"CANADA FIRST."

Still Burning

COST OF SERVICE

Your editorial, Higher Pay, Fewer Jobs, implies there is a connection between the wages of firemen and the amount of fire protection the city should have.

This is a queer line of thought. If the firefighting service is adequate and efficient our fire insurance will cost less. What we elect councillors for is to see that adequate and efficient service is provided. Wages have no connection with efficiency, except that inefficiency is more likely if the worker is badly paid in comparison with other trades.

Since most taxpayers earn their living (as opposed to living off inheritances) one would think that they would like to see city employees paid, adequately, regardless of trade or profession.

J. P. THORNTON.

943 Wilmer Street.

WORTHY OF HIS HIRE

Vancouver has recently had a succession of serious fires. But for an "adequate" personnel and services of a well-trained department to hold the flames in check there could have been a disaster.

Victoria, too, has probably one of the most efficient firefighting forces in Canada, officers and men on the alert, halls never closed, seven days and nights in the week, a 24-hour service guarding valuable lives and property, especially in the raw early morning hours, entering buildings dense with smoke, falling debris and searing flames.

It is a wonder that anyone should voluntarily want that job at any price. Tomorrow, it could be, not Vancouver or Toronto but our own fair city, with a "big blaze" and strong winds (in deadly danger) that only a fully-manned department with modern equipment could stop its destroying progress.

Be fair to these gallant men. Surely they are worth that extra tenth of a cent on the tax dollar, about the value of a package of cigarettes for us all a year.

C. CLARKE.

515 Springfield Avenue.

REDUCING PROTECTION

I would like to commend both our fire chief and Mr. Fyfe on their stand, "that the cut would mean a reduction of fire protection and a resulting danger to life and property." I was rather interested to note that the chief mentioned "life" first, not property, as so many people do in reports when there is a disastrous fire or accident.

To me, and no doubt to the majority of people, a life is very important, whether it be your own or someone else's, therefore I look upon our fire department as a life-saving department, and we want to keep it intact.

I can only see disastrous results in cutting out any part of this very valuable department. As a first aider and member of the St. John Ambulance I can well appreciate the value of such a body of trained men as our fire department have and how much we really have to depend on them in an emergency, not always a fire.

Here we are in the midst of another civil defense, or as it was called last time, A.R.P. program—and some of our city aldermen dare to cut down on our first line of civil defense—the fire department. It just doesn't make sense.

In any major disaster such as an air raid, earthquake or major fire such as schools or hospitals, our present fire department would more than have their hands full, without being short of men, as Mr. Skillings and others would have them. These men are already trained for an emergency and Victoria is not invulnerable.

Granted we would all like to see our taxes lowered, but it does not seem logical to start on the fire department.

We can thank God and our fire department that we have been so fortunate as not to have the casualty lists that some other cities do and may our fire department protection continue—it is the best fire insurance you can have.

JEAN LINDAL,
821 Caledonia Avenue.

Ups and Downs

By BRIAN TOBIN

"THEY used to say," said the Elevator Man, "that every man has his price. They applied it as much to voters as to people they voted for, to folks of low or high degree, to rich and poor. The principle didn't vary but the amount did. I suppose in a way the saying is true, if you want to get away from strictly financial dealings and get into philosophy. There must be some point at which every human being will change his mind, although the 'reward' may not be for his own personal gain. Of course that gets you into the 'which would you druther' game. Nothing would induce you to toss your grandmother off the top of a building, you say. Yet if the alternative was her death by burning, you might find yourself taking the chance. Nothing would make you steal, you say. But if there was no other way, would you place the whiteness of your soul before the life of, say, your child? Most compromises with life are from necessity, not from choice. Going down!"

"You may remember," said the Elevator Man, "that bank down in the States that adopted the system of leaving a box full of change in the lobby for the convenience of customers who needed coins for parking and bus fares. They depended on folks' honesty not to take out without putting in. Well, it worked fine for a while. But then the bank found that they were getting too many losses in the half-dollar class. Now they put nothing bigger than quarters in the box, and it's working better. Lower main!"

"It looks," said the Elevator Man, "like half a dollar is the price of honesty in that town. Or else they figure a quarter isn't worth stealing in these days of inflation. I suppose most of us leave a few debts to life along the way, little occasions when we dropped our standards to bargain rates. Sometimes we forget the debts until they pile up. We may even reach the point of that fella who said, 'Several of my friends in my old home town want me to go and live there again.' 'Did they tell you that?' asked an acquaintance. 'Yes,' says the fella, 'they said they want me to come back and settle.'"

Tobin

Honesty

Winnipeg Press

Press

Though once again efforts are being made to obscure the significance of the rift, it is clear enough that a tense situation exists within the C.C.F. Parliamentary group. In the past the Socialist party has not been distinguished for its tolerance of heretics. The implications of Mr. Ross Thatcher's (M.P. Moose Jaw) criticisms are dangerous; they cast doubt on sacred maxims; are capable, in certain respects, of being turned against the free-spending Socialist government of his own province. There is no telling where honesty will end.

The Timid Soul

BY R. T. WEBSTER

CITY PAINTERS SEEK BOOST BEFORE CONCILIATION BOARD

Victoria painters, seeking a 55-cent-an-hour wage increase, will present arguments in support of such a raise to a three-man conciliation board which sits in Victoria this week.

The painters, members of the T.L.C. Painters and Decorators' Union, are demanding \$2.12 an hour for brush work and \$2.25 for spray.

Philip Fleming is sitting as chairman of the board with Tom Gooderham representing the union, and G. Kaiser, the contractors.

Authorities Uninterested In Stranded Whale Problem

SAN FRANCISCO, May 5 (AP)—A 20-foot, 2,000-pound whale floundered ashore Sunday, disposal of the body, lying in the bright sunshine, was up to the city engineer. But the city engineer was not available for action.

Two highway patrolmen, called to the scene, notified the Coast Guard.

"That's the local health department's problem," the Coast Guard said. "Heavens, no, we don't want it," the navy said.

GYMKHANA DRAWS 65 HORSES; SIMPSON STALLION ENTERED

Close to 65 horses, many from the mainland and up-island points, have been entered in the big May 24 horse show and gymkhana to be staged by the Victoria Riding and Hunt Club.

Plans for the show are well in hand. Don Carley is show manager; F. T. Donegan, chairman; Lt.-Col. R. Richmond, judge; Wally Williams, ringmaster; Ritchie Munro, whipper-in; Gerry Alken, clerk of the grounds, and Barbara Warren, show secretary.

A special feature of the event will be a showing of the American-bred stallion Rideau Bend Golden Star Prince, who will work in harness. The horse, owned by Mr. and Mrs. Jack Simpson, will be driven by John Lundy, of Vancouver.

Unconducted Girl Choir Awarded Highest Praise

REGINA, May 4 (CP).—Sixteen Regina girls Saturday night presented the "Expo Song," were acclaimed the best choral group "likely to be heard anywhere" and walked off with the highest marks ever awarded any vocal group by Adjudicator Cecil Cope.

The Regina Hewettes, winners of top honors in the 39th annual Regina Music Festival, were awarded 97 for their unconducted presentation of the "Expo Song." Earlier in the week they took the first record-breaking mark of 95 for their two selections in the choir class.

Mr. Cope said their music was "the finest I've ever heard in Canada or am likely to hear anywhere." By any standards they do absolutely first-class work.

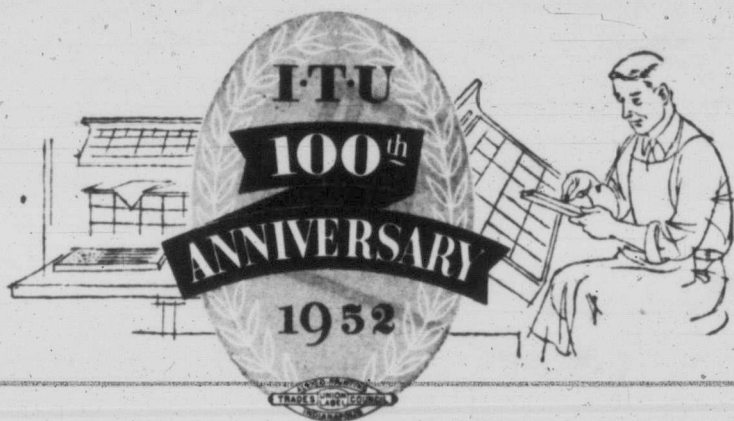

Just Another Line of Type—

But an Important Milepost With a Meaning!

May 5, 1952

...historic date when Printers observe the One Hundredth Anniversary of the

INTERNATIONAL TYPOGRAPHICAL UNION

A Remarkable Record of Consistent Service To Every Person in This Community:

1850—A convention of journeyman printers from Typographical Societies in six states met in New York to consider forming a national union.

1851—Delegates met in Baltimore, set up a committee to draft a constitution and by-laws for the proposed national printers' union "for the relief and benefit of the craft."

1852—On May 5, the I.T.U. was born at Cincinnati, Ohio, by adoption of this resolution: "The stipulations of the late national convention having been complied with, the National Typographical Union is hereby declared organized."

1853—Full financial reports of receipts and expenditures began, continued without interruption since. —Convention adopted bargaining policy: "The National Union regards as injudicious a frequent resort to strikes, believing that in most cases differences can be settled by more amicable means."

1857—New Orleans convention considered a proposal for "establishment of a union printers' home for those members who have grown old in the art."

1858—Opened membership to receive printing pressmen after many such craftsmen expressed a desire for organization as part of the printing industry.

1859—Convention gave favorable support to the policy of contracts with employers "after first having invited a conference with employers." —Union pioneered in giving consideration to fight against tuberculosis and "the exposure of its members to diseases of the respiratory organs."

1860—Accepted membership of all employers who were practical printers, qualified as journeymen, and who wanted to join with their employees in the union.

1862—Convention criticized the secretary-treasurer for calling off the convention scheduled in 1861, for such a minor reason as a war between the states; instructed the president to send a letter to all southern unions "assuring them of our continued good will and fellowship."

1863—Criticized the "paper trust" for increasing paper prices, and petitioned Congress to remove from paper the "duty now charged and regulated by laws."

1864—Resolved that "monopoly of the telegraph dispatches" by the Associated Press "is hurtful to the craft and a direct infringement of the liberty of the press." —Accepted membership of, and bargained for wages for, proofreaders and stereotypers working in union shops.

1865—First proposed an eight-hour day, although most craftsmen were working ten, eleven and twelve hours and many members were paid on "piece-work" basis.

1866—Began 43-year struggle to secure copyright law which would protect American craftsmen from competition with cheaper European labor.

1869—Opened membership to women, required equal pay for equal work and barred discrimination against them. —Resolved that printers should be hired "solely on account of competency, and not for religious or political views they may entertain." —Name changed to International Typographical Union after affiliation of Canadian unions, paving the way for real friendship between Canada and the United States.

1870—Miss Augusta Lewis of New York elected corresponding secretary, the first woman to be chosen as an officer of a national or international union.

1872—Launched long campaign for repeal of the conspiracy laws of the various states, under which labor organizations were subjected to persecution. —Began chartering separate unions of printing pressmen in cities where such members desired separate charters.

1873—Birth of principles of the Fair Practices Act; Union insisted each publisher have newspaper set or reproduced in type by his own employees; men were furnished for a varying volume of work at no loss of time nor extra expense to publishers; fair practice principles still in effect, fully justified by eighty-year experience.

1876—Convention took first action to abolish sub-lists, and opened the way for a plan of priority now accepted and used throughout most industries.

1877—Local Unions provided relief funds, shared work, when great depression forced newspaper suspensions, business bankruptcies, wage reductions, widespread unemployment, and unregulated apprenticeship problems.

1879—International Typographical Union started action to organize the American Federation of Labor, instructing secretary to contact other national and international unions; also instructed local unions to "cooperate with other trades unions" at the local level "for united action."

1881—Federation of Trades and Labor Unions formed at convention called by Typographical Union delegates; announced platform demands for compulsory education of children, opposing employment of children under the age of fourteen, favoring an eight-hour day, opposing competition of prison and foreign labor, and requiring wages to be paid in lawful currency.

1885—Stereotyper and electrotyper members given local union charters in cities where such members desired separate local unions. —Monotype process patented, producing type from perforated paper punched from keyboard; journeyman printers learned and have operated such machines, without any question of jurisdiction, for more than sixty years.

1886—International Typographical Union adopted a Union Label "so that the product of union labor may be readily known by purchasers, and the demand for publications friendly to the cause of organized workmen may be encouraged."

1887—Maintained autonomy of international unions, announcing "the International Typographical Union would not acknowledge allegiance to nor recognize the supremacy of any other organization," would affiliate with but would not apply for nor accept a charter from the American Federation of Labor or any other organization. —I.T.U. issued charters to bookbinder members who wanted to form separate local unions.

1889—Required all amendments to constitution and all proposals to increase dues or assessments to be submitted to referendum of local union members. —Publication of *The Typographical Journal* started.

1890—Union Printers Home at Colorado Springs authorized and board of trustees chosen to arrange for erection of main building. —Introduction of Linotype machine brought resolution: "The principal factor in the economic operation of typesetting machinery is the employment of highly skilled and intelligent labor."

1891—International Typographical Union adopted plan for burial fund, now known as the Mortuary Fund, beginning a new epoch in fraternal benefits for members. —First authorized strike for nine-hour day in Pittsburgh by commercial printers and pressmen; I.T.U. members vote voluntary assessment to assist Pittsburgh members. Employers organized association to oppose Union, secured first injunction to prohibit picketing or speaking to strikebreakers; organized labor staged huge parade in protest against use of new strikebreaking weapon, the injunction, by government agency.

1892—Union Printers Home formally opened for reception of residents, and for sixty years the I.T.U. has provided this home and hospital for afflicted, aged and infirm printers. —Two thousand pressmen members seceded and formed their own international union. —I.T.U. authorized membership for mailers and news writers.

1893—Convention provided for initiation of new laws by petitions from local unions as a further step in guaranteeing democratic rule of the Union. —By referendum of members of both organizations, the German-American Typographia united with the International Typographical Union.

1894—By resolution adopted in referendum, members asked Congress for the "abolition of monopoly privilege of issuing money by individuals and corporations, and substituting therefor a system of direct issuance to and by the people."

1896—Bookbinder members, by agreement and with the assistance of the International Typographical Union, formally established their own international union. —Convention adopted provision for electing all I.T.U. officers by popular vote of the membership.

1898—Convention adopted law to discourage and prevent outlaws strikes, by withholding benefits unless strike or lockout is authorized by the Executive Council.

1899—Established nine-hour day, six-day week by contract with commercial printing employers after many months of collective bargaining. —Organized all Linotype machinists and machine tenders working in composing rooms; required such employment to be given to competent members of the Union.

1900—Instructed the president to notify the American Federation of Labor that the I.T.U. "is not in position to arbitrate its own laws" as to jurisdiction over composing room work claimed by other crafts.

1901—First of a series of International Arbitration Agreements with newspaper publishers adopted by referendum; system continued 21 years, then replaced by voluntary arbitration.

1902—Golden Anniversary showed a total membership of 38,364, with 559 local unions. —Women's International Auxiliary organized.

1903—By agreement with the International Typographical Union, stereotyper and electrotyper members established their own international union.

1904—International Typographical Union locals of photo-engraver members were assisted in forming the International Photo-Engravers Union.

1906—Members in commercial printing shops struck for an eight-hour day, and carried it to successful conclusion against employers' open-shop movement.

1907—Adopted a voluntary plan of "I.T.U. Course of Instruction in Printing," offered by the Inland Printer Technical School of Chicago.

1908—Established a Pension Fund by special assessment based upon a percentage of earnings, the model for the social security plan and for most industrial pension plans.

1909—Manufacturing clause in U. S. copyright law adopted after 43-year agitation by the International Typographical Union to protect American labor from substandard foreign competition on matter protected by our copyright law.

1910—Referendum of membership adopted policy of discouraging and opposing piece-work, bonus for extra production, and sweatshop conditions.

1911—Joined with other crafts in forming International Allied Printing Trades Association, assigned title of Allied Label to joint ownership of affiliated crafts, provided voluntary co-operative action.

1912—The I.T.U. took over the Inland Printer Technical School Course of Lessons in Printing as a continuation of its apprentice training policy.

1914—Authorized sending delegates to Trades and Labor Congress of Canada, after it separated from the American Federation of Labor by agreement. Represented at every session since that time.

1916—Made ten-year arbitration agreement with commercial printing employers, but neither employers nor printers ever used arbitration during the life of the agreement.

1917—International Typographical Union guaranteed protection of jobs and priority for its 7,343 members who entered military service of Canada and the United States.

1919—Negotiated international agreement with commercial printing employers for a 44-hour week, which employers repudiated on the day it was to become effective.

1921—Commercial printers struck to enforce the 44-hour agreement made with employers in 1919; weekly half-holiday won, pattern for all crafts.

1922—Began free collective bargaining without previous arbitration commitment by either party, since record of 21-year experience proved complete freedom necessary to successful negotiation.

1930—Union survived greatest economic depression in history by sound principles and practical approach to problems, shared work and created unemployment funds, set a pattern for others.

1933—Began a five-day week at expense of members only; later federal law helped other workers get the five-day week; reduced earnings were offset by sound bargaining and co-operative practices.

1935—Wagner Act seldom used by union printers. I.T.U. gave aid to newly organized locals. —Urged American Federation of Labor to organize millions of workers in mass production industries.

1937—International Typographical Union refused to be assessed by the A. F. of L. to fight industrial organization, holding fast to the policy adopted in 1882 and reiterated in 1887 and 1900 asserting its autonomy.

1939—Tolerated suspension from American Federation of Labor for non-payment of the unauthorized assessment to create a fund for war against industrial unions.

1944—Accepted re-affiliation on same basis as in 1881, after A. F. of L. adopted policy: "International unions have complete authority to regulate the conduct of their officers and members, and to control the use of their funds and properties."

1947—International Typographical Union refused to accept any of the alleged benefits of the Taft-Hartley Act, holding fast to time-tested, sound principles of free collective bargaining, unhampered by governmental bureaucracy or other outside interference.

1952—Its 89,659 members still hold to the 100-year-old principles and practices which have made the International Typographical Union a great social force for progress and betterment, as well as the oldest and most democratic trade union in the world.

INTERNATIONAL TYPOGRAPHICAL UNION

VICTORIA TYPOGRAPHICAL UNION, No. 201
CHARTERED JUNE 2, 1884

Teaching the Fundamentals of Good Citizenship and Practicing Democracy in Economic and Social Betterment

ISLAND DIGEST

ALBERNI, May 5—A charge of manslaughter has been laid against Gordon Peterson, arising out of a car-truck accident April 9 in which Edward Romuld, 74, lost his life. No date has been set for a preliminary hearing.

Romuld was a passenger in a car driven by Peterson that collided with a loaded gravel truck.

DUNCAN, May 5—Annabelle Lovesth, Cowichan Station, representing Cobble Hill Calf Club, was declared winner of the district 4-H public speaking contest finals at Fairbridge.

Prizes were presented by Miss Echo Lidster, Victoria, supervisor of 4-H work in B.C.

Other finalists were Marie Cullen, Joan Standen, Florence Baker, Jenny Dodds, Byrd Quist, Norman Quish and James Dodds.

DUNCAN, May 5—E. Miskilman was elected president of Duncan Musical Club at its annual meeting in St. John's Hall.

C. A. Howard, musical director, gave a report on the club's production of "The Mocking Bird," and will announce the next production at a later date.

Others elected to office were Miss Barbara Trueth, vice-president; Miss Roberta Wagner, secretary; Miss Patricia Dennis, treasurer.

METCHOSIN, May 5—Metchosin and district organizations are mobilizing their forces to put a civil defense program into operation.

Executives of units met in St. Mary's parish room last week. Roger Peachey was on hand to offer help and advice.

A co-ordinator for the district will be selected shortly.

LADYSMITH, May 5—City council has granted Ladysmith Lions Club permission to hold its annual "Carnation Day" next Saturday.

PORT ALBERNI, May 5—Parking meters went into operation today on streets in the downtown business section of the city, and will be used week-days from 9 a.m. to 6 p.m.

A committee of the city council will meet Thursday night with taxi firms to discuss and settle meter problems affecting operation of taxis.

LANGFORD, May 5—Langford fire protection district has bought a new inhalator and rescue truck with an inhalator, 2,000-watt lighting plant, and all necessary tools for emergency work.

Within a few weeks a 500-gallon tank truck with high pressure pump, 100 feet of hose and two fog nozzles will be added to the equipment. The volunteer fire department now has 20 members, and a new fire hall is nearing completion.

CHEMAINUS, May 5—Plans for Victoria Day celebrations to be sponsored by the Community Centre forecast the most ambitious and colorful ceremonies ever held here.

Highlights of the festivities, to start May 23 and conclude May 25, will be a parade, May queen's coronation, soap box derby trials, model airplane display, and a baseball tournament.

TEST FOR ARCHITECTS

Two-Stage Competition For National Gallery

VANCOUVER, May 5 (CP)—The Royal Architectural Institute of Canada today announced a two-stage competition to determine the selection of an architect for the proposed National Gallery at Ottawa.

A national gallery to house Canada's art collections is one of the recommendations to the Massey Commission on Arts and Sciences.

The competition was announced by retiring president J. Roxburgh Smith at the close of the annual assembly of the Royal Architectural Institute.

The preliminary competition will be open to architects who live in Canada and who are members of the institute. Participation in the second stage will be limited to a maximum of six competitors chosen from those entering the preliminary.

Following the decision of the jury at the end of the final competition, the institute said, "the competitor placed first will be given the commission to design and carry out the work."

Each of the competitors in the second stage will receive an award of \$2,000.

Members of the jury of awards will be: John Bland, director of the School of Architecture at

McGill University; Alfred Barr, director of the museum collections, Museum of Modern Art, New York, and Eero Saarinen, architect of Bloomfield Hills, Mich.

The announcement said trustees of the National Gallery have appointed Professor Eric Arthur, of the School of Architecture, University of Toronto, as professional adviser in the competition.

Victoria Daily Times
MONDAY, MAY 5, 1952

THORNE NAMED ADJUDICATOR

Ian Thorne, playwright and actor, who studied at London's Guildhall School of Music and Drama, will be one of three adjudicators for the third annual festival of one-act plays here. The festival is sponsored by the Community Arts Council of Victoria.

Mrs. Phoebe Smith and John Thorne are the other members of the team.

Car Insurance Loss Up 13 Per Cent

An increase of 13 per cent over insurance, said 1951 net premium: 917,607. Net premiums written 1950 has been recorded in the sums written were valued at \$13,214,525, and 1951 ratio of net losses incurred 897,219. Net premiums earned net premiums earned totalled 10 net premiums earned among were \$13,619,910 and net losses \$13,890,610.

Mr. Taylor reported the ratio of net losses to net premiums decreased from the 1950 figure of 138 car insurance companies in were \$9,569,188. Net losses incurred by fire insurance companies totalled \$4,540,606 to 35.40 per cent last year.

When you are the nurse...

The need to prevent infection spreading through the house is essential. You'll welcome 'Dettol' then for the antiseptic protection it affords.

For washing your hands after contact with the patient, for disinfecting bed and other linen and all sickroom utensils, for bathing or washing the patient, use 'Dettol' regularly. More and more people are relying on 'Dettol', the modern antiseptic, whenever or wherever the menace of

infection threatens. For 'Dettol' is the safe way to safety. A ruthless killer of germs, 'Dettol' is non-poisonous and safe—so safe that children can use it. A clear, clear liquid with a pleasant smell, 'Dettol' neither pains nor stains.

IN THE HOME... AS IN THE HOSPITAL

In Canada's leading hospitals 'Dettol' is relied upon in the fight against infection. The reasons which prompt the use of 'Dettol' in the hospital apply equally to the home. Always keep 'Dettol' on hand as "YOUR FAMILY ANTISEPTIC"

SPECIAL "SUPER POWER" 120 HP. V-8 ENGINE

CANADA'S HEAVY-DUTY TRUCK CHAMPION

Canada's newest Mercury Truck engine—the special "Super Power" 120 Hp., L-head V-8 engine! It's another first for Mercury Trucks! This powerful Heavy-Duty Champion develops its horsepower at 3600 r.p.m.—develops 204 pounds foot torque at 1500-2000 r.p.m. Combining brilliant power with precisely engineered economy, the new "Super Power" V-8 engine is available in Series M-5 and M-6, Conventional and C.O.E.'s.

THREE OTHER MIGHTY MERCURY TRUCK ENGINES

"World Famous" 104 Hp.
This "World Famous" 104 Hp., L-head V-8 has a piston displacement of 239 cu. in., compression ratio of 6.8:1—new auto-thermic pistons to control piston-to-wall clearance—self-cleaning, self-turning valves! Standard in Series M-1, M-3, M-4.

"Cargo King" 145 Hp.
Never before have Mercury Trucks offered so much horsepower per cubic inch piston displacement! Piston travel is reduced 20%—engine develops 30% more horsepower through new High-Compression—Low-Friction design. Series M-7 only.

"Cargo King" 155 Hp.
Most powerful engine ever built for Mercury Trucks! This O.H.V. engine develops 158 Hp., has piston displacement of 317 cu. in., compression ratio of 7.0:1—saves up to 14% on gas through High-Compression—Low-Friction design. Series M-8 only.

Montreal Boxers Dominate Team

VANCOUVER, May 5 (CP)—Half the members of Canada's Olympic Games boxing team carry a made-in-Montreal stamp.

Montrealers were awarded three of six places on the squad by a national selection committee which wrangled for nearly four hours before reaching agreement early Sunday morning.

'Y' Moppets Nip Aberdeen In Swim Gala

"Y" swimmers, the moppet divisions, caused grizzled coach Archie McKinnon to break into a happy smile at the Crystal Garden Sunday night.

"It was one of the best meets staged in many a day," said Archie after his charges had charged from behind in the final race to seal a 73-71 decision from Aberdeen.

Gerald Cuthbert was a double winner in the boys' 12 and under division, coping first in the 50-yard free style and breast stroke events.

Square dancing in water and a comedy canoe number, both by Aberdeen, added to the event.

Results follow:

150 Yards Medley Relay, boys 12 and under: 1. Aberdeen; 2. Vic. Y. Time, 3:48.3.

150 Yards Medley Relay, boys 16 and under: 1. Vic. Y.; 2. Aberdeen. Time 3:38.1.

50 Yards Free Style, boys 14 and under: 1. B. Haves (Y.M.C.A.); 2. B. Cuthbert (Y.M.C.A.); 3. D. Heywood (Y.M.C.A.). Time, 2:23.1.

50 Yards Free Style, boys 16 and under: 1. D. Dickie (Y.M.C.A.); 2. B. Warburton (Y.M.C.A.); 3. R. Fisher (Aberdeen). Time, 2:31.1.

50 Yards Free Style, girls 10 and under: 1. B. Cuthbert (Y.M.C.A.); 2. T. Shea (Y.M.C.A.). Time, 2:38.1.

50 Yards Breast Stroke, boys 16 and under: 1. W. Williams (Y.M.C.A.); 2. R. MacMillan (Aberdeen); 3. M. Haves (Y.M.C.A.). Time, 3:48.1.

50 Yards Breast Stroke, boys 12 and under: 1. G. Cuthbert (Y.M.C.A.); 2. M. McRae (Aberdeen); 3. G. Haves (Y.M.C.A.). Time, 4:42.1.

TIME OUT! By Jeff Kento

"Not until you tell me how you happened to be out with my boy-friend last night!"

Drysdale High In Rifle Shoot

Bandsman Frank Drysdale, veteran marksman of the Canadian Scottish Regiment, fired a 93-point score to lead the scoring at Healy's Range Saturday.

Drysdale had 48 out of 50 at 200 yards and 45 from the 600-yard mound. Major W. H. Wood, of the Scottish, was second with 91.

Scores follow:

Canadian Scottish Regiment (P.M.)—Bandsman Frank Drysdale, 48 45—93; Maj. W. H. Wood, 47 44—91; Eileen Leppard, 47 42—89; W. C. Thorburn, 39 46—85; D. Thorburn, 45 38—83; R. P. Leitch, 39 35—74; R. A. Hughes, 39 32—71; R. E. Lapham, 41 29—70.

75th (B.C.) H.A. Regt. R.C.A.—Maj. A. M. Taylor, 43 45—88; O. C. P. Richardson, 40 45—85; Dick Payne, 44 44—88; S. Sgt. Dave McCreedy, 44 42—86; Y. G. Valman, 44 42—86; Doug Price, 42 44—86; P. V. Richardson, 44 39—83; Lieut. J. Kennedy, 47 45—92; Mary Robinson, 39 34—73; G. R. George, 28 25—53; George Johnson, 22 27—49; Karl Wyle, 21 24—45; D. D. MacDonald, 22 24—46.

40th Tech. Bn. R.C.E.M.E.—P. Morse, 44 43—87; P. Morse, 44 42—86; Maj. A. E. Evans, 43 42—85; G. Sward, 44 42—86; Don Sward, 39 38—77.

No. 89 Regt. Air Cadets—Cpl. M. Todd, 44 39—83; Sgt. F. Sangha, 43 42—85; L.A.C. P. Barry, 43 38—81; Gorth Shering, 44 39—83; Jerry M. Nixon, 29 25—54; Royal Canadian Navy—A. E. Julius, 39 43—82; R. B. Falls, 29 36—65.

ISLAND GOLF FINAL

Colgate Meets Bob Morrison

It will be Ted Colgate and Bob Morrison, two amateurs, in the 36-hole final of the Vancouver Island Match Play Open tournament next Sunday at Gorge Vale.

Hugh Morrison Retains Title

VANCOUVER, May 5 (CP)—Hugh Morrison, of Victoria, retained his city match play open title Sunday by defeating Shaughnessy professional Fred Wood, of Vancouver, 2 and 1 on the Point Grey course here. Morrison beat Wood in last year's final 1-up.

Millman Wins Race, Not Once But Twice

VICTORIAVILLE, Que., May 5 (CP)—Canada's Olympic cycling team should be pretty well sure of one of its members today—Johnny Millman of Vancouver—who won the trials twice here during the week-end.

Saturday, despite poor weather, the Olympic trials were run off and Millman won the qualifying 1,000-metre time trial. Officials, however, decided to re-stage the race Sunday.

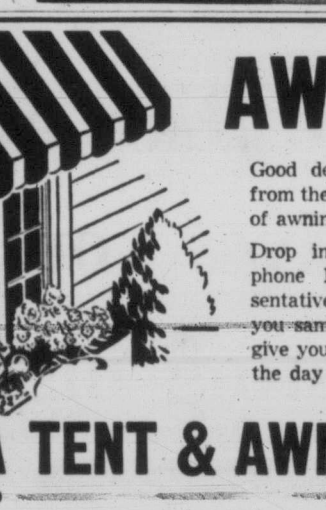

Sure enough, Millman came through again in the re-run and placed first with a time of one minute and 22 seconds.

In the scratch race, for which times were not available, Millman also took first place.

BOXLA OPENER BILLED TUESDAY

Nanaimo Jets and Jimmy Little's Jokers will meet in the opening game of the Island Senior "B" Lacrosse League Tuesday night at Nanaimo. Game time is 8:30.

The Victoria opening will take place at Stevenson Memorial Park Sunday with Jokers meeting Foul Bay at 2:30.

Big Thrill To Arcaro

LOUISVILLE, Ky., May 5 (AP)—Eddie Arcaro got his biggest Kentucky Derby thrill winning Saturday's 78th running with Hill Gail.

"There's no thrill like winning your first derby unless it's winning your fifth," he said happily in the jockey room after the near-record finish.

He said he felt his record of five derby winners, two more than any other rider has boasted home, is safe now.

As if to speak a report that he was planning to retire, he added quickly:

"But I'm going to keep on coming to the derby as long as they give me the best horses like Hill Gail."

On the other hand, he wouldn't compare Hill Gail with Citation, his last victorious mount.

"You don't compare other horses with Citation," he said. "He was the greatest."

Utility Softball City Hall defeated B.C.E. Drivers, 15-1; Northwestern Creamery nipped Hudson's Bay, 15-14; and B.C.E. Office and Lennan, McFeely and Prior battled to a 9-9 draw in recent Utility Softball League games.

Within the reach of everyone!

5¢

Derby Winner Hill Gail To Seek 'Triple Crown'

LOUISVILLE, Ky., May 5 (AP)—Hill Gail's hopes of becoming king of the three-year-olds seemed to hinge today on how well he can meet two upcoming issues.

Everybody agreed his performance in winning Saturday's Kentucky Derby stamped him a steed of unusual promise. But before he can sit in the throne room of such former kings as Citation, Whirlaway, Count Fleet and Assault, he must first:

1. Show that he can go the longer distances, such as the one and one-half mile route of the Belmont Stakes later this spring.
2. Prove he's master of other three-year-olds that weren't ready for the derby, including Tom Fool, Primrose and Charlie McAdam.

Even those sold most solidly on Calumet Farm's great thoroughbred mused on Hill Gail's determination to turn on the speed the

minute he's out of the starting gate.

Jockey Eddie Arcaro said he couldn't restrain the colt. Speed horses rarely can save enough steam for classics such as the Belmont, one-quarter mile longer than the derby. But Hill Gail's time in the derby indicates he can run both fast and far. He missed the race record by one-fifth second—2:01.33.

Trainer Ben Jones said he was undecided about which purses he will seek with Hill Gail in the immediate future.

If the horse holds up physically, he will go for sure after the other two parts of the "triple crown." Next in that campaign comes the Preakness at Baltimore's Pimlico track May 17. The Belmont follows June 7.

On the other hand, he wouldn't compare Hill Gail with Citation, his last victorious mount.

"You don't compare other horses with Citation," he said. "He was the greatest."

Boss Discusses B.C.H.I.S. Cases

Sidney Meeting Told of Hospitalization Benefits in Actual Instances of Help

By GORDON FORBES

Premier Byron Johnson got right down to "cases" when discussing hospital insurance at an election meeting in St. Andrew's Hall, Sidney, Saturday night.

After dealing with the wider and more contentious aspects of hospital insurance, Premier Johnson, who is the architect of the scheme, told the Saanich Liberal Association-sponsored meeting about a few actual cases in the B.C. Hospital Insurance Service files.

To a hushed audience, the premier told about a woman who was seriously burned shortly after hospital insurance was instituted. She spent 17 months in hospital and the cost was \$6,622, the premier noted.

"That woman left the hospital fully recovered, and her only expense was the hospital insurance premium. Just think what hospital insurance means to that woman," said Premier Johnson.

He told of another case in which hospital insurance had saved the day for a 57-year-old woman who spent 327 days in hospital with a septic hip.

"The B.C. Hospital Insurance Service paid to the hospital more than \$4,400 on behalf of that

woman," said Premier Johnson. "What would a woman of that age have done if she had been faced with paying such a large bill?"

The premier gave several other actual cases to emphasize his point.

"These cases represent what hospital insurance means to me. They give me the picture," declared Premier Johnson. "I could stand here for hours and tell you about people who have come to me and told me what hospital insurance has done for them."

He said he isn't going to abolish hospital insurance, and he isn't going to make it voluntary, as has been suggested by some political parties.

"Make hospital insurance voluntary and it means the responsibilities go from the government back to the local authorities. It would mean a return to the pre-hospital insurance days when the hospitals' finances were shaky. It would mean higher municipal taxes," said the premier.

Hospital Administrators Worried

Premier Johnson said hospital administrators throughout B.C. are almost frantic with the thought that hospital insurance may become a voluntary scheme.

Premier Johnson spoke highly of Arthur Ash, Liberal candidate, who, he said, has "served the community and the Legislature well."

Ash started off the Sidney meeting with a fighting speech which knocked other political parties hard.

He said the Progressive Conservative platform which called for "making security secure" didn't make sense.

"That's just like saying we must make perfection perfect," said Mr. Ash.

Noting the C.C.F. has said it will tax big industries more heavily, the candidate said this would simply mean the extra burden would be passed on to the consumer in higher priced goods.

"The people of B.C. can dismiss the Social Credit party's vague program," said Mr. Ash. "It is a program typical of a leaderless party. The platform was concocted in Edmonton and forced on the B.C. members to swallow holus-bolus."

Mr. Ash threw some new light on the claim that the Alberta Social Credit government has reduced that province's debt by \$42,000,000.

"The Social Credit fail to tell you \$5,300,000 in relief debt was paid to Alberta in 1948 by the federal government. This money was used to reduce the debt, none of it being passed on to the municipalities," said the candidate.

Mr. Ash said the federal government also paid Alberta \$3,000,000 as the last payment for the return of natural resources to the province.

Alberta has been able to reduce its debt because of the niggardly way it has treated its municipalities. Municipal debt has increased from \$41,000,000 to \$116,000,000 in recent years. It is a different story in B.C. where municipalities are treated most generously," said Mr. Ash.

Premier Johnson spoke from a dogwood-blossom bedecked platform. As the premier got up to speak, the audience broke out in the song, "For He's a Jolly Good Fellow," which brought a brilliant blush to the premier's boyish face.

All's Fare in Bus Strike

Pickets at the Eastern Massachusetts Street Railway bus yard, in Quincy, Mass., battle police as they try to overturn a car. The car was being driven by a "trainee," being readied by the company to operate the buses idled in the 51-day walk-out. (NEA telephoto.)

City Flower Beds Now at Peak

Approximately 550 flower baskets will be hung from city lamp standards early in June.

City parks department today said the nursery staff at Beacon Hill is now completing the baskets.

Nature lovers are flocking to Beacon Hill these days to view "one of the last remnants of the natural meadow lands of early Victoria," according to one parks official.

Wild buttercups and camas spotted with white erythronium dot the wild open land around the hill.

Flowering cherries and other spring blossoms may be seen at

their best during the next few days.

Of special interest are the wallflowers and forget-me-nots in a mixture perfected by the parks department over the past

14 years. They are planted in beds along Douglas Street entrance to the park, north of Goodacre Lake and at Stadacona Park.

"Climatic conditions this winter have contributed to make the best wallflower display in many years," according to parks officials.

Color and Grace of Eastern Dances Feature Musical Festival Display

By AUDREY ST. B. JOHNSON
Colorful national costumes, dance section of the Greater Victoria Musical Festival took the flashing feet swirling about the spotlight.

Crystal Garden lower ballroom—Contests held during the morning and afternoon were climaxed in the evening with a gala display by outstanding groups selected by the adjudicator, Miss Grace McDonald.

Featured were two senior contests and two special numbers—a graceful Natch dance by an East Indian Victoria High School student, and a Chinese girls' group from Central Junior High. These were a delight, both in costume and movement.

The event served to prove once more the pitiful inadequacy of our local auditoria facilities. The dancing space was cramped with children sitting on the floor, and the cry of "standing room only" greeted throngs of people of sought admission around 8 o'clock.

AMAZED AT PROFICIENCY
Miss McDonald expressed the expectation of the festival committee when she stated she hoped this section of the festival would grow into something much wider next year. She was amazed, she said, at the number of very young children who were so proficient in the dance.

Results of the various classes follow:

Grades 1 and 2: Any authentic singing group. First, St. Margaret's School, Grade 1 & 2. Second, Oaklands School, Grade 2. Third, St. Mary's, Grade 2. Fourth, St. Mary's, Grade 1. Fifth, St. Mary's, Grade 2. Sixth, St. Mary's, Grade 1. Seventh, St. Mary's, Grade 2. Eighth, St. Mary's, Grade 1. Ninth, St. Mary's, Grade 2. Tenth, St. Mary's, Grade 1.

Grades 3 and 4: Any authentic singing group. First, St. Margaret's School, Grade 3 & 4. Second, Oaklands School, Grade 3 & 4. Third, St. Mary's, Grade 3 & 4. Fourth, St. Mary's, Grade 3 & 4. Ottawa Group Wins Drama Award

By JOHN MOSHER
Canadian Press Staff Writer

SAINT JOHN, N.B., May 5 (CP).—The Saturday Players of Ottawa led the parade Sunday when awards were presented after the week-long Dominion Drama Festival.

They won the highest honor—the Bessborough Trophy for the best presentation. Mrs. Julia Murphy, who directed the winning production of "The Enchanted," received a trophy for best director, and Gleson Goodhue, a member of the Ottawa cast, was judged the best supporting male actor.

Other winners were:

Best performance by a man—E. M. Margolese, the Actors Company, Toronto.

Best performance by a woman—Carmel Kemp, St. John's Players Workshop Group (Newfoundland).

Best visual presentation—St. John's Players Workshop Group.

Best presentation in English, excluding the winner of the Bessborough Trophy—Regina Little Theatre Society.

erborough, Ont. "The Voice of the People," presented by the Bellefleur, St. Mary's, Ont. "Sit Ye Down," by William Digby, London, Ont.

Best play written by a Canadian resident—Robertson Davies, Peterborough, Ont.

Best supporting female role—Mary McNeill, Regina Little Theatre Society.

Best play written by a Canadian resident—Robertson Davies, Peterborough, Ont.

Best supporting male role—Gleson Goodhue, Ottawa.

Best director—Mrs. Julia Murphy, Ottawa.

PRAIRIE ROUND-UP

Winnipeg Woman Dies In Highway Accident

WINNIPEG, May 5 (AP).—One person was killed and four others injured in week-end accidents in Manitoba.

Dead is 24-year-old Mrs. Doris Bage of Winnipeg. And in hospital with injuries are William Bage, aged 30, husband of the dead woman; Alan Salisbury, 22, of Winnipeg; Richard Pringle, 26, Winnipeg; and Mrs. Albert Gutnecht of Petersburg, Manitoba.

Mrs. Bage was instantly killed early Sunday morning when a U-drive car in which she was riding with her husband left the road and rolled over in the ditch near Elle, Manitoba.

Winnipeg Death

WINNIPEG, May 5 (AP).—Charles McGill Hamilton, 74, of Winnipeg, a member of the board of grain commissioners for 19 years, died here in hospital Saturday. He had been ill for 18 months.

He was minister of agriculture in Saskatchewan Liberal governments in the 1920's. First elected to the legislature in a by-election in 1919, he was appointed agriculture minister in 1920 and re-elected in 1921 and 1925.

He also held the posts of highways minister and municipal affairs minister with his agriculture portfolios in various governments.

He was appointed minister in charge of the Child Welfare Act in 1927.

Mr. Hamilton farmed extensively in the Weyburn district and took part in municipal affairs. He was president of the Saskatchewan Association of Rural Municipalities for several years.

Needed No Help

CALGARY, May 5 (CP).—A woman who braved the icy waters of Glenmore Reservoir Sunday morning brought the city fire department's rescue squad, complete with boat, screaming to her assistance when it was thought she was in difficulties.

About 11 a.m. a report was made to the department that a woman was in the middle of the reservoir, clinging to a log. When the firemen arrived, the woman had left the log, swam to the shore, and then plunged back into the water to swim across the lake again.

She apparently was an expert swimmer who didn't mind risking a cramp in the cold water.

Identity of the woman is not known.

A POST-GRADUATE degree of Doctor of Divinity has been awarded Rev. J. L. W. McLean, of St. Andrew's Presbyterian Church, by University of Toronto. He conducted services at St. Andrew's Sunday, having just returned from Toronto where he attended convocation of Knox Theological College and received his honorary degree.

HISTORIC ISLE

Ile Perrot at the Junction of the St. Lawrence and Ottawa Rivers was named after F. M. Perrot, governor of Montreal in 1670.

WINTER MOVES EAST

Edmonton Blanketed By Snow

EDMONTON, May 5 (CP).—The weatherman laid a white blanket of snow over the Edmonton district early today and the weather office reported 1½ inches had fallen between 3:15 a.m. and 7 a.m.

The snowfall was caused by a cold front moving in from the Pacific Coast which sent the temperature down to an overnight low of 30 degrees. The cold front is moving slowly eastward toward Saskatchewan.

The snowfall was confined to the Edmonton district and was expected to end late this morning.

Snow fell in the district May 29 last year. The Edmonton district and was expected to end late this morning.

Royal Oak Writer Awarded 'Book of Year' Honor

A book written by Catherine Anthony-Clark, of Royal Oak, has been named the "book of the year for children" by the Canadian Association of Children's Librarians.

Announcement was made Sunday by Miss Amy Hutchison, New Westminster, chairman of the association, at the annual convention of the B.C. Library Association here.

Mrs. Clark will be presented with a bronze medal at the conference of the Canadian Library Association at Banff in June.

The book voted best by the members of the association was "The Sun Horse," Mrs. Clark's second book for children.

The setting for the story is in the Kootenay Lake district, where the author lived for many years, and the book combines fantasy and reality, modern folk tales and Indian lore.

Mrs. Clark is the second Vancouver Island author to win the award, which has been made

only four times. Campbell River's Roderick L. Haig Brown previously won it for his book "Starbuck Valley Winter."

Noel and Joyce Smith, sisters of Mrs. Clark who live at Cadboro Bay, says she has a limitless imagination and a puckish sense of humor. There were eight in the Smith family, five boys and three girls, and Mrs. Clark "mothered" them all.

"She always had quaint ideas on and Creston. She has also to amuse the children," Noel Smith says. "I remember how stories and poems.

she persuaded them that a pair of bluejays were really spies for Father Christmas, and kept him informed concerning a child's good and bad deeds.

Mrs. Clark came to B.C. in 1914, to live in the Creston Valley beside Kootenay Lake.

Her first book, "The Golden Pine Cone," was written on her husband's ranch, "Charkoot," which is half-way between Nelson and Creston. She has also written many short articles, good and bad deeds.

CATHERINE A. CLARK

Bars Will Be Back, Mayor's Prediction

Robert House Ideal For Liquor Sale; 'Don't Tie It Up'

Mayor Claude Harrison feels cocktail bars are almost a certainty after the June 12 provincial plebiscite.

He told a City Council lands committee today a renovated Prince Robert House would be "an ideal place" for a cocktail bar.

Committee was discussing future of the building and the mayor advised them not to be hasty about renting it for storage purposes to Woodward's Ltd.

He said a local businessman who recently offered to rent Robert House for \$350 a month, to put in an old-Victoria type tearoom and restaurant, wished to have a man go over the building to estimate the cost of renovation. The mayor favored tabling the matter in the meanwhile.

"They are putting on a big campaign for liquor by the glass and cocktail bars and I think it will go," said the mayor.

Should sale of wines be permitted in restaurants, he felt brewery interests "might put money up for a cocktail bar in Prince Robert House."

"It's a dandy place for it; don't tie it up," he advised.

Ald. Waldo Skillings said he did not think Victoria "will ever go for beer" but might for light wines and spirits.

He urged the city to look into the question of licensing well ahead to protect Victoria financially should such establishments be permitted.

"Every time a European comes here he wonders why he can't have liquor with his meals," said Mayor Harrison.

The new organization will be working in direct opposition to the Victoria Citizens' Association and the Alcohol Research Council, which have joined forces to defeat the plebiscite.

Mr. Cran said the province's present liquor laws encourage intemperance by requiring the citizen to buy an entire bottle in order to have one drink.

"We shall campaign for an affirmative vote. Sale of liquor by the glass is a positive step toward temperance because it eliminates the need to buy a minimum of a bottle of spirits," he said.

The Common Sense Liquor Law Committee contends liquor by the glass will improve the quality of meals available to the public by giving the restaurants and dining rooms an added sale from which to provide even better food.

Meanwhile, the Victoria Citizens' Association, which wants to collect \$25,000 to help defeat the plebiscite, probably will hold a mass meeting when its campaign is rolling. Most of the money will be spent in buying various types of advertising.

ALLEGED CO-RESPONDENT DEAD, 70-YEAR-OLD SEEKS DIVORCE

A 70-year-old Victoria man has initiated divorce proceedings, citing as grounds events which took place more than 20 years ago.

The case was spoken to today in Supreme Court Chambers here.

The case is unusual not only because of the lapse of time between the alleged cause and the court proceedings, but because the co-respondent reportedly died in 1937.

The divorce action was undertaken as the plaintiff wishes to remarry.

POLITICAL NOTES

Sweet Music Overture For Liberal Speakers

MEETINGS TONIGHT 8 p.m.—Liberal rally at Club Sirocco.

By GORDON FORBES

Times Legislative Reporter

The old-time political meetings, where music played nearly as big a role as the candidates, may be returning to the British Columbia scene.

The trend has been noticed during Premier Byron Johnson's election tour swing around Vancouver Island.

At Nanaimo last week, a three-piece band romped through lively numbers before the meeting got under way, and struck up with more of the same immediately the speeches were completed.

A Duncan meeting had a piano player who could—and did—play everything from swing to jazz, and boogie-woogie to light opera. He had everybody in a toe-tapping mood before the speeches started.

The climax came at Sidney Saturday night when the piano playing was a little more conservative (small "c")—it was a Liberal-sponsored meeting. But the effect will be remembered.

In this case the platform guests and speakers were kept in the wings until just before the meeting started. On a pre-arranged signal, no doubt, the "performers" walked on stage and the previously modest piano playing zoomed into a much higher, bouncier tempo.

As the speakers and guests walked to their positions to the accompaniment of rousing music, the audience was reminded somewhat of the old music hall days when each footlight entrance and exit was done to the tune of lively strains.

Albert riding Liberals have nominated James Mowatt their candidate in the June 12 election. He defeated Charles Cocks by a vote of 132 to 82.

Mr. Mowatt will be remembered as the man who didn't get the Liberal nomination in 1949, but ran as an independent and won anyway. First elected in 1941, he has run twice as a Liberal and once as an independent. He has never been defeated.

Nigel Morgan, British Columbia leader of the Labor-Progressive party, will be a candidate in the Nanaimo riding.

William Duncan Smith, Coalition member of the Legislature from 1945 to 1949, has been nominated Liberal candidate for Atlin.

Veteran politician Harold Winch, C.C.F. leader, put a young Liberal candidate on the spot last week at a Vancouver meeting.

The young candidate was Frank Lewis, Mr. Winch's opponent in Vancouver East in the coming election. Just as the C.C.F. leader was about to address his supporters at a party rally, he spotted Mr. Lewis among the audience.

He invited Mr. Lewis to the platform and allowed him five minutes to explain words attributed to him in the press that Mr. Winch had reached the age when he should retire from politics.

Mr. Lewis accepted the old-time parliamentarian's challenge, mounted the platform and explained he had referred to ideas of the C.C.F. party as attuned to 1933 rather than the present.

VICTORIA, B.C., MONDAY, MAY 5, 1952

13

BETWEEN TIMES

By MONTE ROBERTS

Most distressing item of news just fluttered in from Knoxville, Tenn. Chap down there, anxious to join the navy, pleaded in vain to recruiting officers. Nope, they said, you have flat feet.

"But think of my name," he cried. "Don't care if your name is John Paul Jones, you still got flat feet," they told him.

"My name is John Paul Jones," he protested. He had his birth certificate to prove it, too, but he didn't make navy.

One day last week I found it impossible to get home and serve dinner to the dogs who live at our house.

So I telephoned my neighbors, the Hardists, to see if they'd take on the chore for me.

Well, the Hardists didn't answer, but just before I hung up, my neighbor Ruby Cochran cut in on the party line to ask if she could help.

I told her the problem and she said not to worry, she'd see that somebody would feed the dogs.

The sequel to this little tale of good neighborliness is that the puppies were fed by the following:

1. Mr. and Mrs. Tom Hardist. 2. Mr. and Mrs. Fred Page. 3. Mr. and Mrs. Gordon Bulloch and Perry. 4. My son, Ron, who turned up unexpectedly.

By the time everybody got together and compared notes, the pups were completely stuffed and thoroughly happy.

Being polite, they did not refuse to eat with any of their hosts.

You can chalk up another in the long list of disillusionments which build up around a man in the course of a lifetime. This one is about cowboy hats.

I don't mean the big white 10-gallon jobs, seen at rodeos and on presidential candidates when they visit Texas. I mean the perky, insolent, brim-curved and battered jobs associated with the working cowboy.

I have occasionally wondered how many years of service are required before a hat takes on that delightfully rakish appearance.

Now a dispatch from the heart of Texas reveals the truth. At a cowman's convention there, an enquiring reporter went around asking delegates how their hats got that way, and here are some of the answers:

Steam the brim over a boiling kettle.

Use your wife's steam iron.

Tie the brim up with string and soak it in water overnight.

Somehow, the idea of a cowboy using a steam iron is too much for me to bear.

It's heartening to know that Victoria has a heart. On Friday, this newspaper ran an item asking for drivers to take victims of arthritis and rheumatism to the Tuesday clinics of the Canadian Arthritis and Rheumatism Society.

The paper had hardly reached the street before the phone began to ring; and by this morning, the society had enough volunteer drivers and cars pledged to take care of their needs.

TOPICS OF THE TIMES

The price of eggs took a slight rise today for the first time in about a month.

Grade A large went up one cent a dozen and Grade A medium jumped two.

Reason for the increase is the fact Grade A offerings from the prairie provinces are on the decline.

John J. Hearne, Ireland's Ambassador to the U.S., will be principal speaker at Seattle University's 1952 graduation exercises to be held May 29 at Seattle Civic Auditorium.

Hearne, a member of the Irish Senior Bar, was representative of his government in Canada until his appointment to Washington in April, 1950.

Harry P. Hodges, former editor of the Victoria Times, has been appointed a provincial representative on the Royal Jubilee Hospital board of directors.

He takes the place of Robert Wootton who recently retired.

Mr. Hodges was a city representative on the board for several years. He has been off the board for one year.

Retail credit courses run from 3.30 to 5.30 each Monday, from May 12 to June 9, and from Sept. 9 to Oct. 7. The store management courses run during the same periods, but from 7.30 to 9.30 p.m.

May meeting of "The Mission of Lepers" will be held Thursday at 3 p.m. in the Y.W.C.A.

A prowler took \$50 cash and \$5 worth of stamps overnight Saturday after breaking into an office occupied by Dr. David M. Boyd, 220 Pemberton Building.

Police said entry was made by forcing an office door, then breaking into a desk drawer to remove the money.

Carpenters belonging to the Courtenay local of the United Brotherhood of Carpenters and Joiners (U.B.C.A.F.) have authorized E. T. Staley, secretary of the provincial council of carpenters, to make application to the B.C. Labor Relations Board for a strike vote.

The Courtenay carpenters are asking for a strike ballot following rejection of a majority coalition board recommendation that they be given no pay increase this year.

The men, now earning \$2 an hour, had been seeking \$2.50.

Main project which would be affected by a strike is the new housing development under way at the R.C.A.F. airport at Comox.

Careening Cars Kill No Riders

An unidentified person was hurt and a truck and car were wrecked in accidents Saturday night, R.C.M.P. Highway Patrol reports. Four others had remarkable escapes.

An Island U-Drive vehicle in charge of Roy Allan Singer, Elder Logging Co., Sooke, overturned after crashing into the cement wall bordering the Island Highway, high on the Malahat.

The unidentified occupant of this car sustained minor injuries, police report.

Singer told police he got into trouble when he swung over to avoid an oncoming vehicle.

FOUR ESCAPE HURT A driver and three passengers escaped injury when a panel delivery truck, plunged off Interurban Road and into a drainage ditch.

The truck was wrecked. Saanich police said the driver was Roderick C. Prewett, 2554 Deane Street, and passengers James Prewett, 886 Hyacinth, Patrick

Atherly, 344 Simcoe, and LeRoy Pudney, 810 Violet.

Police said about \$150 damage each was done to cars driven by Milton R. Fraser, 38 Dunford, Langford, and Peter Gottlieb, Glen Lake, when they were in a side-swipe collision on the Langford stretch of the highway.

WRECKED IN COLLISION In Oak Bay, Saturday night, police said a car driven by Richard Norton, 1636 Hampshire, was completely wrecked after it collided with a second car, driven by Gerald F. Kenny, Dunedin Street, at Hampshire and Bowker.

Neither driver was injured. Medium damage occurred Sunday at Cook and Pandora when cars driven by Lester M. Drysdale, 1720 Cook, and Allen John son, 2204 Douglas, collided.

Involved in a \$450 collision, Gustav M. Roberg, 671 Burnside, received a \$40 fine and a license suspension. He had a similar previous conviction.

Gordon M. Sheppard, 788 Newberry, was fined \$25 for driving without a current driver's license. He was remanded to Wednesday on a careless driving charge.

Gur. Henry May, Gordon Head Camp, was fined \$25 for operating a car without 1952 license plates. Mrs. Ina N. Sam, Brentwood Indian, was fined \$25 on the same count.

The new organization will be working in direct opposition to the Victoria Citizens' Association and the Alcohol Research Council, which have joined forces to defeat the plebiscite.

Mr. Cran said the province's present liquor laws encourage intemperance by requiring the citizen to buy an entire bottle in order to have one drink.

"We shall campaign for an affirmative vote. Sale of liquor by the glass is a positive step toward temperance because it eliminates the need to buy a minimum of a bottle of spirits," he said.

The Common Sense Liquor Law Committee contends liquor by the glass will improve the quality of meals available to the public by giving the restaurants and dining rooms an added sale from which to provide even better food.

Meanwhile, the Victoria Citizens' Association, which wants to collect \$25,000 to help defeat the plebiscite, probably will hold a mass meeting when its campaign is rolling. Most of the money will be spent in buying various types of advertising.

NO PEAL OF JOY

Court's Bell Tolls for 130 Car Drivers

The city police court "cash register" beat out a steady tune for 45 minutes this morning. Erring motorists handed over \$356 in fines.

Pre-paid fines amounting to \$201 involved 119 motorists, chiefly for parking offences. Eleven appeared before Magistrate H. C. Hall and paid \$155. All but one pleaded guilty.

Donald J. Briggs, 2849 Dewdney, was fined \$50 and given a three-month license suspension for dangerous driving. Court was told he hit a parked car at McClure-Collinson and then collided with a tree. Vehicle damage was about \$375.

Youthful driver Henry R. Cameron, 2975 Orillia, paid \$30 in fines for speeding, failing to register a new address with the motor vehicle branch and for going through a red light.

Involved in a \$450 collision, Gustav M. Roberg, 671 Burnside, received a \$40 fine and a license suspension. He had a similar previous conviction.

Gordon M. Sheppard, 788 Newberry, was fined \$25 for driving without a current driver's license. He was remanded to Wednesday on a careless driving charge.

SHOPPING GUIDE

Penny Babbles in German—Doesn't Know What It Is!

By PENNY SAVER

Willst du etwas neues zu kaufen sehen?

Ja?

Also, hier haben wir das was du lieben wirst! Fun, eh? I love doing something different once in awhile even if I don't know what I'm doing.

What I'm really trying to say is that I have found something new for you to buy which I'm sure you will like. The articles come from Germany so I thought it would be fun to chatter in that language. If you don't understand, don't worry, I haven't a clue what it says. I got it on good authority though, that it was printable.

Well, to carry on with the news of the day, I've found something really nice.

Petitepoint cases and compacts from Germany, priced from 79 pennies to \$7.50.

Trust me! Of course, the first case that took my fancy was the most expensive one. It was a jewelry case with zipper closing lined with velvet and decorated with ever popular petitepoint. The price tag read \$6.50.

A small change purse in the eye-catching petitepoint is 95 pennies; a compact is \$1.59 and manicure sets are priced from \$2.75.

Your gift problems should be solved!

Golfers, take note! Seen the "cosy kits" that clip onto your belts to be worn with skirts?

If you haven't, you're really missing a dandy little number. The cosy kit is made of soft leather and comes in eight shades to hold your loose change.

To look at it you would maybe wonder how on earth it "worked." I puzzled for awhile, then discovered that a loop slides over two bars and opens into a roomy pouch.

Selling at \$1.75.

WHY GROW OLD?

By JOSEPHINE LOWMAN

New Styles for Short Hair Make It Easier to Care for

If you want to know how you look in a poodle haircut don't go out and stare at a poodle. It is not necessary. Poodle-curl hair pieces have been developed. These are made of fibres that look and feel like real hair. They can be shampooed at home and pinned over short hair ends.

I think this hairdo appeals to many women because it is so easy to take care of. It is cool for hot weather and wonderful if you swim or are outdoors a lot. However, many women hesitate to take this step because it is somewhat drastic compared to the average haircut and takes quite a while to grow out if you do not like it. Therefore I mention the poodle pieces to you.

Women got a lot more out of woman's suffrage than the right to vote. Soon afterwards they discarded long, sweeping skirts, stifling corsets, long, heavy hair and laborious hairdos and went into the worlds of business and sports.

In hair styling this has been especially apparent. Women have left the traditional for the individual, the modern, the easy-to-handle. For a time they played about with haircuts which were too mannish but I think everyone will agree, that today, even short hair looks feminine and becoming. This has not only happened in this part of the world but all over it. Today a woman looks into the mirror and asks herself simply, "What style will be flattering to me?" She has learned to combine fashion and individual becomingness.

We used to think that short hair inhibited the variety of styling possible. The contrary seems to be true. This year there are a great many accessories for short hair on the market. There are combs of all sizes and prices. You can sweep your hair up at this point or that and hold it in

Perfume That Clings

Q.—Dear Claire: I adore perfume, but for some reason or other its fragrance just does not last on me. I have told several of my friends that I want a new perfume, but first I must find out about a lasting one. —Mrs. A. W.

A.—A particularly good idea for women who claim that perfume does not "stay with them" is a brand new fragrance medium by Houbigant called Liquid Skin Sachet. It soothes on the skin very easily and lingers longer because of its sachet base. It has a slower rate of diffusion and evaporation than any other type of fragrance. Try this Houbigant Chantilly Liquid Skin Sachet. Only \$2.00.

Maytime Tea at 'King's Mount'

Mrs. W. B. Plaunt, centre, is again opening "King's Mount," her attractive 305 Denison Road home and garden, for a Maytime tea, under auspices of St. Andrew's Women's Missionary Auxiliary, on Wednesday afternoon from 2.30 to 5.30.

Mrs. J. G. Robinson, right, president of the W.M.S., and Mrs. J. Mitchell, the treasurer, have been assisting with arrangements for the affair and with Mrs. Plaunt, will welcome guests.

TODAY'S RECIPE

HONEY COCOA

One quart milk, ¼ cup cocoa, ¼ teaspoon salt, ½ teaspoon cinnamon, ¼ teaspoon allspice, ¼ teaspoon nutmeg, 2 to 4 tablespoons honey, ¼ teaspoon vanilla.

Scald milk in double boiler. Mix cocoa, salt, cinnamon, allspice and nutmeg. Add 2 tablespoons of the milk and blend into a smooth paste. Pour into the scalded milk. Add the honey and vanilla. Reheat. Beat with a rotary beater until well mixed. Four generous servings.

Mother's Day Tea—Miss S. J. Roberts, matron Veterans' Hospital, will open the annual mother's day tea on May 9. The tea, sponsored by the Ladies' Auxiliary, Army, Navy and Air Force Veterans, begins at 2.30 p.m. in the auditorium, 1001 Wharf Street. At the regular meeting of the ladies' auxiliary, three new members were initiated—Mesdames V. Carter, E. Boston and G. Holland.

LET NEW METHOD GUARD YOUR FURS against NIGHT DAMPNESS

PROTECT your furs during the long summer months from their deadliest enemy—humidity. Night mists creep up from the ground and seep through the thickest walls. Serious damage to your costly furs can result. Soaking up the moisture from humid air, your furs become soft, flabby and stretch out of shape. Yes, and dampness is a fertile field for rapid growth of cancer-like mildew.

Night dampness can never seep into New Method's strong, cool vaults. Our famous Haertel System vaults are kept at the right temperatures and the right humidity level to preserve the lustrous beauty of your furs all summer long. A bonded New Method driver will pick up your furs now. Low rates based on your own valuation—low minimum. You pay nothing until next fall.

NEW METHOD CARE FOR EXTRA WEAR...

AUTOMATIC HUMIDITY CONTROL. The amazing Humidistat in New Method's Haertel Vaults maintains humidity between 50 and 55 per cent... keeps out the moisture menace.

AUTOMATIC STERILIZATION AND VENTILATION. Only the purest filtered air reaches your fur coat. Total absence of moth life is guaranteed. Your coat hangs free, uncrowded.

VAULTS ARE SAFE AS A BANK. The only fur storage vaults in Victoria with full B.C. District Telegraph Protection Services... Burglar Alarm System is linked direct to City Police Station. Vault walls are concrete, eight inches thick.

FULL INSURANCE. Your coat is fully insured from the time it is picked up until it is returned to you. Vaults are completely fireproof.

Fur Storage:

Storage charges are at the rate of 2 per cent of your own valuation of your coat. Minimum valuation accepted is \$100.00.

Honor Son on Birthday

Mr. and Mrs. A. D. Ballantyne, North Quadra Street, entertained Saturday evening at a dinner party in the Terra Cotta Room at the Dominion Hotel, to mark the 21st birthday of their son, David, and his return from University of British Columbia. The table was decorated with roses and lily of the valley. Later, the party enjoyed a social musical evening at the Ballantyne home, where David cut his birthday cake.

Friends Fete Miss Adams

Miss Grace Adams was honored by her associates in the Bureau of Economics at a bon voyage tea in the Empress Hotel, last Saturday afternoon. Miss Orsa-Marie Douglas was in charge of arrangements, and others present included Mesdames A. H. Adams, T. Barbour, M. Browne, J. Douglas, M. O'Hanlon, H. Palmer, T. West and the Misses Claire Brailsford, Lillian Conway, Ellen Dames, Marjorie Fletcher, Pamela Holford, Lorna Horwood, June Hughes, Peggy Kirby, May Lough, Betty Morris, Joyce Roberts, Francis Rodgers, Charnain Steves, Marian Watson, Patsy Webber and Georgina Whan.

Miss Adams was presented with a gardenia corsage and her friends were interested in hearing the plans for her forthcoming trip. From Liverpool she will go to London for a short stay before touring France and Belgium. Later she will motor in southern England, attend the Shakespearean Festival and then motor in western England before embarking on the Ascania for home on July 10.

Mrs. J. N. Edgar, Falkland Road, returned to Victoria last week end following a nine-week visit in Winnipeg with her mother, Mrs. Napier Layton.

A social evening was held recently by members of the badminton club at Colwood, to conclude the season of play. Refreshments were served under direction of Mrs. W. Price.

Out-of-town guests at the wedding of Miss Ruth Gael Beveridge and Mr. Andrew Alexander Heberton Saturday evening were Mr. and Mrs. R. Heberton and Miss Gladys Heberton, Winnipeg; Mr. George A. Ballantyne, Prince Albert, Sask.; and Mrs. J. C. Marshall, Calgary.

Mrs. R. D. Browne-Clayton, Kelowna, who is to be an attendant at the wedding of Miss Barbara Nation and Christopher West on Wednesday, arrived in Victoria Saturday, and is the guest of Mr. and Mrs. C. C. Carpenter, Cedar Hill Road.

Mrs. F. Elvidge, who is to be a judge at the decorated table and flower display in the Empress Hotel on Wednesday, afternoon and evening, has arrived in the city from Seattle and is the guest of Mrs. H. Chisholm, Queenswood.

Ladies of the Lake Hill Liberal Association entertained Saturday afternoon at a tea in the Lake Hill Hall to honor Mrs. Byron Johnson. In the receiving line with Mrs. Johnson were Mrs. Gilbert Lucas, wife of the president of the association; Mrs. Vera Joyce and Mrs. Arthur Ash. Presiding at the attractively appointed tea table were Mrs. Lucas, Mrs. J. M. McGee, Mrs. Jessie Gray, Mrs. W. B. Mortimer and Mrs. Joyce. Corsage bouquets were presented to Mrs. Johnson and Mrs. Ash. Mrs. K. M. Lewis assisted with arrangements.

To Present Recital

Miss Marion Barnum, a native daughter of British Columbia who achieved much success in her own province and in New York, will be presented in recital by the Arts Centre of Greater Victoria on Thursday evening at 8:30 in the Arts Centre, 1040 Moss Street. Miss Barnum, who was born in Vancouver, has twice won scholarships to the Juillard School of Music in New York and has won high praise from the New York critics while in that city. She is the godchild of Mrs. R. H. Meadus of this city. Tickets are available at the Arts Centre and at the Marionette Library. Reception in the Arts Centre will follow the recital.

add the fresh color and lustre of LOVALON the modern hair beauty rinse

Leaves hair soft, easy to manage • Blends in yellow, grey streaks • 12 flattering shades • Removes shampoo film • Gives sparkling highlights

Mr. F. Milligan and Mrs. A. Harrison came from Vancouver to attend the wedding Saturday evening of Miss Mildred Grace Turner and Mr. Kenneth Mark Lea.

Out-of-town guests at wedding of Clara Helen Mae Stenseth and George Albert Thomas Saturday evening were Mrs. Frenette and Mr. and Mrs. G. Larson, Alberni; and Mr. and Mrs. Healy, Nanaimo.

Gael Beveridge and Andy Heberton Wed in St. John's Anglican Church

Hockey came into the limelight again this week-end with the announcement of the marriage Saturday evening of Ruth Gael Beveridge and Andrew Alexander Heberton, a member of the Cougar hockey team.

Canon George Biddle officiated at the ceremony in St. John's Anglican Church for the daughter of Mr. and Mrs. Edgar J. Beveridge, Cook Street, and the son of Mr. and Mrs. Robert Heberton, Winnipeg.

Spring flowers and ferns decorated the church and the congregation joined in the singing of "O Perfect Love."

Mr. Beveridge gave his daughter in marriage.

The bride's gown of Chantilly lace in redingote style featured a cathedral length train. The sleeves came to lily points and buttons extended down the front of the bodice from a stand-up collar line. The lace redingote was worn over a strapless nylon net gown. A chapel veil of French illusion net misted over the bride's shoulders from a Juliet cap of lace studded with tiny pearls. She complemented her gown with a shower bouquet of gardenia, red roses and lily of the valley.

Mrs. Homer Bondy, Calgary, cousin of the bride, was matron of honor. She wore a leaf green gown of taffeta with off-shoulder neckline and floor-length skirt featuring a ruffled back.

Bridesmaids, Miss Sadie Preston, Miss Sharon Thomas and Miss Gladys Heberton, Winnipeg, sister of the groom, wore identical gowns of mauve, shell pink and turquoise blue.

The attendants carried shower bouquets of spring flowers in contrasting shades and wore taffeta bandeaux touched with flowers.

Flower girl, little Shirley Leaver, wore a pale yellow taffeta dress with long skirt caught at the front to reveal a frilled crisp white organza underskirt. She carried a basket of blue flowers.

Reginald Abbott was best man.

May Work Sale—Sum of \$74.23 was realized at a successful sale of work held on May Day at Colwood Hall under the auspices of the Woman's Auxiliary to St. John's Church. Mrs. H. J. Jones officially opened the affair. Home cooking stall was in charge of Mrs. Jones and Mrs. R. Bird, needlework, Mrs. A. Proudfoot and Mrs. T. Tingle; flowers and plants, Mrs. R. McFarlane and Lady Robinson. Afternoon tea was served by Mesdames A. Ferris, J. Allen, E. Emery, R. Robinson, F. Searle and O. Rodman.

Infant Daughter Receives Names

Rev. J. J. van der Leest officiated at the christening ceremony in Christ Church Cathedral yesterday afternoon which bestowed the names, Kelly Lee, on the three-and-a-half month old daughter of Mr. and Mrs. D. G. B. Shepard, McAnally Road. Paternal grandparents are Mr. and Mrs. Perry Shepard, Beach Drive, and

maternal, Mr. and Mrs. W. J. Allen, Toronto. Mr. John Wallace is the infant's godfather, and godmothers are Mrs. Timothy Heiberg and Mrs. D. A. Collins. Following the ceremony at tea was held at the Beach Drive home of Mr. and Mrs. Perry Shepard.

Mildred Turner And Ken Lea Married

A quiet ceremony in St. John's Anglican Church Saturday evening united Mildred Grace Turner, daughter of Mr. and Mrs. R. H. Turner, Tulip Avenue, and Kenneth Mark Lea, son of Mr. and Mrs. A. E. Lea, Dalhousie Street. Canon George Biddle officiated.

Mr. Turner gave his daughter in marriage. She wore a beige wool tulle gown with brown accessories and carried a white prayer book topped with yellow roses. Her brown hat was touched with matching roses.

Mrs. G. Murdoch, matron of honor, chose a cocoa-toned suit complemented with darker brown accessories and a corsage of Johanna Hill roses.

G. Murdoch was best man.

A reception for immediate family and close friends was held at home of the bride's brother-in-law and sister, Mr. and Mrs. R. K. Stocks, Quadra Street. F. Milligan proposed the toast.

Upon leaving for her honeymoon in California the bride topped her wedding ensemble with a matching coat.

Exchange Marriage Vows In Grace Lutheran Church

A double ring ceremony in Grace Evangelical Lutheran Church Saturday evening united Clara Helen Mae Stenseth and George Albert Thomas in marriage.

Rev. E. H. Nygaard heard the nuptial vows of the daughter of Mr. and Mrs. Aksel Stenseth, Cumberland Road, and the son of Mrs. A. Roy Thomas, Toronto Street, and late Mr. Thomas.

Baskets of iris, stocks, tulips, blossoms and fern decorated the church and Mrs. Buckler accompanied the church choir during the singing of "O Perfect Love."

The bride, given in marriage by her father, wore a tudor style gown fashioned in bridal satin. A stand-up wing collar of lace was matched with insets in lily-point sleeves. The full skirt was in train and a cap of lace and net trimmed with pearls held the veil of nylon net edged with lace. Her gown was complemented with a bouquet of red roses and white carnations, also a gold locket, gift of the groom.

Matron of honor, Mrs. William Thynne, sister of the bride, and Miss Joan Nicholson, cousin of the bride, bridesmaid, chose identical gowns in apple green and pink, respectively. They were styled with frosted nylon net over taffeta complemented with arm bouquets of spring flowers.

Edward Thomas was best man for his brother, and ushers were Alfred Stenseth, brother of the bride, and Frank Pryzyk, the groom's brother-in-law.

A three-tier wedding cake topped with pink rosebuds centered the bride's table at the reception in Terry's Rose Room. Rev. Nygaard proposed the toast.

The bride donned a dusty-blue suit topped with a pale pink shortie coat complemented with navy accessories and a corsage of gardenias and forget-me-nots for her honeymoon in Washington and Oregon.

NEW YORK TRAFFIC SOLUTION NO HELP TO VIENNA'S MAYOR

NEW YORK, May 5 (AP).—Mayor Franz Jonas of Vienna, Austria, arrived Saturday seeking information on, among other things, how to solve traffic problems in Vienna.

He wasn't long finding out New York has traffic problems of its own.

After riding by car along busy thoroughfares several miles from Idlewild Airport into Manhattan, he was asked if, from what he saw of New York traffic, he felt he could learn something of value for Vienna.

The mayor's interpreter gave his answer: "He does not think so now. He pities the drivers here."

Fair Marks City Gain In Population, Trade

By BURKE CAHILL, Times Business Editor

"Victoria in 1952" is the title of a study of commercial development here issued by the Victoria Chamber of Commerce to mark the opening of the B.C. Products Fair in this capital today.

Rapid population increase and growth of secondary industry changed the face of this city in the post-war years.

Victoria's population stands at present, according to the latest census, at 105,335. This breaks down into 2,058 for central Saanich, Esquimalt, 10,058, Oak Bay 11,969, Saanich 28,249, and Victoria City 50,774.

The main purpose of the B.C. Products Fair is to let Vancouver Island residents know more about the many articles which are made in their midst. This is the sixth year of the fair and the list of exhibits shows how new products are being developed locally at a fast pace.

There will be 60 manufacturing displays at the fair this year and new lines of forming machinery and agricultural products have been added.

POPULATION RISE

The rapid rise in the suburban population accounts mainly for the upsurge in secondary industry to serve the growing Greater Victoria market. In addition, higher transportation costs all around have raised the expense of carrying goods to this area and have thereby encouraged industry to locate closer to the larger local market.

The latest annual figures of industrial and payroll data for Greater Victoria show a gain from 675 industries with wage bills totalling \$26.8 million to 688 firms with a total payroll of \$29.6 million.

A good idea of the mushrooming market here is obtained by a glance at development in Oak Bay municipality alone. In 1951 Oak Bay completed over \$137,000 of new paving under the local improvement system. The street lighting system was also reorganized through a debenture issue of \$50,000 and new water mains

are currently being laid at an estimated cost of \$180,000.

For 1952, Oak Bay expects to gain a lot more new paving to open up subdivisions costing around \$100,000, including the necessary water and drainage systems. The municipality is now building a \$600,000 junior high school.

GROWTH PROBLEMS

The future holds plenty of problems for the capital of British Columbia. The expanding business sections of the city are causing the accent on new residential development in the outlying areas.

Satisfactory locations for new industries are still a problem. However, an increase in the water supply for Saanich would enable that area to take some of the overflow of new business houses and plants.

Heavy industries have used up nearly all the space in Victoria harbor and an alternative shipping area is a must.

Sooke harbor, which is large and has many frontage advantages, seems the best bet. It provides power, water, deep anchorage, plenty of dock space, and direct rail access to the markets of Canada and the U.S. through the C.N.R. facilities.

To ease the growing pains of Greater Victoria, caused mainly by the need for expanded civic services which in turn cost more than ever these days, some citi-

zens with an eye to greater economy took to an amalgamation of the five municipalities.

CUT COSTS

This would undoubtedly cut costs and attain a greater degree of efficiency through centralized and therefore better planned administration. But the move is still in the discussion stage.

The tourist trade here, still the biggest money earner for the city as a whole, is also making big gains. Tourist supporters are active with plans to make the area more attractive for visitors who continue to come in growing numbers.

It is obvious that a much larger city is in the making here. The pace of progress brings the long-sought-after west coast road closer.

Tibetans-Reds In Bloody Fight

CALCUTTA, India, May 5 (AP).—Reports reaching here from Tibet Saturday said Tibetans fought a bloody street battle with Communist Chinese troops in Lhasa, the capital.

Both sides suffered casualties, the reports said, but did not say how many.

The trouble was said to have started when armed Tibetans surrounded the house of Sawang Ngabou, cabinet minister regarded as a quisling.

Father Pulls Son Alive From Plane

PORT JUDITH, Rhode Island, May 5 (BUP).—The father of a young pilot—who did not want his son to fly—saw his plane crash Sunday and pulled him from the wreckage at Port Judith, Rhode Island.

Luigi watched with horror as the plane carrying his son—26-year-old Louis Prete—circled the house and crashed into a telephone pole. The elder Prete

ran to the wreckage and pulled out his son and a passenger—Arnold Benz of Providence, Rhode Island. The young pilot and his passenger each received head injuries and broken ankles in the crash. They have been hospitalized at nearby Wakefield.

Lake Ontario is 180 miles long from east to west and 53 miles across at its greatest breadth.

Which Twin's Toni was set a week ago—and which was set today?

Yes, both twins have Toni's. Julia Lacy, on the left, had hers set just before this picture was taken—Cynthia, on the right, had her Toni set one whole week before and never re-set it! You can't tell the difference. Here's proof that Priceless Pink Lotion gives a wave that stays lovely without re-setting!

You'll forget all other ideas about permanents the first time you use New Toni with Priceless Pink Lotion. For the new Toni process is faster, gives a wave with the vibrant spring and silky-softness of a natural wave. Yes, and it holds the set longer than any other permanent you've ever had!

Never a lotion so wonderful! You've never used anything like Toni's new Priceless Pink Lotion! It curls more completely—yet is kinder to your hair! And that means a lovelier, livelier wave for you. Less re-setting. New freedom from the nightly chore of pin curls.

Never a neutralizer so fast! You save 20 minutes with the new Permafix method of neutralizing. And because Permafix neutralizes more thoroughly, it "locks in" your Toni wave so it can't come out. New Toni means all day—every day beauty for you month after month.

Never a guarantee so complete! If you don't say your new Toni looks lovelier and holds the set longer than any other permanent you've ever had, the Toni Company will cheerfully refund your money. So try New Toni—and you be the judge. Ask for the New Toni at any cosmetic counter.

Toni

Makes you forget your hair was ever straight!

Never before—a wave so lovely...so lively...so lasting!

Father of Five Shoots Self, Wounds Wife

TORONTO, May 5 (CP).—Murray Mitchell, a 40-year-old unemployed father of five children, killed himself with a shotgun late Saturday after chasing and wounding his wife near their east-end Toronto home.

His 36-year-old wife is in hospital where doctors list her condition as critical. She suffered chest and arm wounds and had two fingers shot off.

Police said Mitchell and his family came to Toronto from Halifax a year ago. He found it hard to obtain work and has been unemployed for five months.

The family, with the exception of Gordon, 20, and Cyril, 19, the two oldest, was scheduled to return to Halifax by car Saturday night. The shooting took place shortly before they were to leave.

Fireman Walter Darnborough, on duty at a nearby fire hall, risked his life when he ran to the wounded woman and carried her into the fire station while Mitchell was still shooting. He is one of the few survivors of the Jervis Bay—the armed merchant ship sunk while defending a convey from the German pocket battleship Graf Spee during the Second World War.

B.C. Flier Proves Fast Hitch Hiker

HALIFAX, May 5 (CP).—F.O. Bob Johnston, Kelowna, B.C., one of the jet pilots at an air show here Saturday is one of the world's fastest hitch-hikers.

Johnston, veteran of the Second World War, hitch-hiked a lift to Halifax in a T-33 jet Friday from Ottawa.

Later he hitched in a Harvard trainer to Sydney where he visited his wife. He was back here Saturday to continue his role in the air show.

Sunday, the T-33 left for Ottawa with F.O. Johnston at the controls.

Procedure Expert To Visit Canada

ABINGER HAMMER, Surrey, England, May 5 (CP).—Baron Campion, British expert on parliamentary procedure, said today he will sail for Montreal Tuesday to make a 2½-month study of federal and provincial Parliaments.

Lord Campion, 69, said he will visit Ottawa, all provincial capitals, and if time allows, leading cities in the Maritime provinces. He will complete a study of parliamentary procedure in Commonwealth countries, which he hopes to make into a book.

Lord Campion, first Baron of Bowes, retired as Clerk of the British House of Commons in 1948 after 42 years' service there.

Ardent Church Worker Dies In 91st Year

Mrs. Matilda Carter, 1043 Sutlej Street, an ardent worker at St. John's Church for many years, died Friday in Jubilee Hospital in her 91st year.

Canon George Biddle conducted funeral services from the church at 3 today.

Mrs. Carter was born in Petersfield, Hampshire, Eng. and came to Canada in 1894. She had resided in Victoria since 1912.

Widow of William Carter, well-known contractor and builder in the city who died in 1942, Mrs. Carter taught Sunday school, sang in the church choir and worked in the Woman's Auxiliary of St. John's Church for years.

She was an outstanding gardener. Mrs. Carter was active up to the week prior to her death. Sole survivor is a daughter, Miss Jessie Carter of Portland, Oregon, at present in the city. Interment was in the family plot at Ross Bay.

Oceans Braved In Small Vessels

PLYMOUTH, Eng., May 5 (Reuters).—Skipper Ann Davidson sailed out of Plymouth Sound for the United States in a 23-foot boat today trying to conquer alone the ocean which drowned her husband in their last trans-Atlantic attempt.

Mrs. Davidson, 38, sailed in the yacht Felicity Ann. Planning to reach the coast of Florida in 90 days, she will steer by way of Madeira and Antigua.

Another pair of yachtsmen left here today for California via the Panama Canal in the 40-foot vessel Catania. Norman Fowler, 25, of Los Angeles, captained the Catania. With him sailed Edward Allard, 26, a Briton who made a round-trip crossing of the Atlantic single-handed last year.

Jetliner Off On Trip Home

JOHANNESBURG, South Africa, May 5 (Reuters).—Britain's Comet jetliner took off today for London on the homeward flight of the world's first regular passenger jet service.

The plane touched down at her first stop, Livingstone, northern Rhodesia, 675 miles north, 1½ hours later.

Stops are also scheduled at Entebbe in Uganda, Khartoum, Beirut and Rome before reaching London airport. She is due early tomorrow.

The Comet reached Johannesburg Saturday after covering the 6,724 miles from London in 23 hours 38 minutes, the fastest civil passenger flight ever made.

Bandit Search

WINNIPEG, May 5 (BUP).—Police in Winnipeg are searching today for a youthful gun-toting bandit who during the weekend held up a city storekeeper and escaped with about \$15 in cash.

The victim of the holdup was 62-year-old Maurice Sitner, proprietor of the Manitoba Grocery. Sitner was alone in his store Saturday night when the youth came in.

He told police that the man bought a soft drink, left the store, and returned about 15 minutes later. Sitner said that on his return the youth pulled a revolver and ordered him to "walk over here," pointing to the cash register. He then scooped up the cash and darted out the door.

Body Hidden Under Porch for 4 Days

WICHITA, Kas., May 5 (AP).—The son of a prominent builder told police Saturday he lived four days with the body of a woman he had killed before he put it under the front porch of his father's home.

Detective Joe Klepper said William D. Bircher, 22, signed a statement that he stabbed to death Mrs. Mary J. Brady, 36.

Klepper said Bircher told him: "The slaying took place after an argument which occurred during a drinking bout 'about Feb. 9.'"

Bircher stabbed her while she was nude. He stuffed the body in a duffle bag.

"On Feb. 14, or 15, he said, 'I called a cab and took the body in the bag to my father's home and placed it under the porch.'"

Edward Bircher, the father, found the body May 1.

Loose False Teeth? Gums Sore From Slipping Plates?

Hold Plates Tight With
This Amazing New Cream

What torture to have plates rubbing against gums, leaving them raw and sore! No more! This new cream, Poli-Grip, gives you tight-fitting comfort as never before—does all this, too:

1. Poli-Grip forms a creamy cushion, eliminating friction on sore gums.
2. Holds even shallow lower plates.
3. Seals edges, so food can't get under.
4. Lets you eat anything.
5. Keeps plates tight while laughing, singing, even sneezing.
6. Poli-Grip is made and guaranteed by the makers of Polident.

Over 30,000 Served Abroad

MONTREAL, May 5 (CP).—Defense Minister Claxton said Sunday that more than 30,000 members of the Canadian armed forces have seen service outside their country since the outbreak of the Korean war.

Addressing a gathering marking the 60th anniversary of the foundation of the Mont St. Louis Cadet Corps and the St. Louis Literary Academy, Mr. Claxton said Canada today has men "playing their proper part" to stop aggression in Korea and to prevent aggression in Europe.

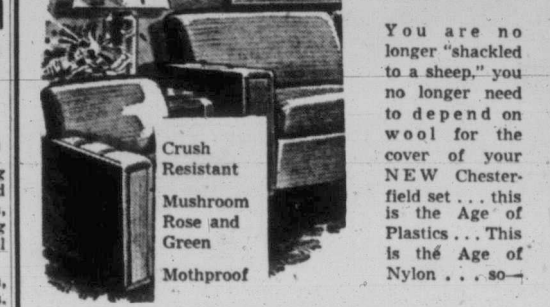

"In the 25 months following Korea, the armed forces were increased from 47,000 to 96,000—more than doubled," he said.

He paid tribute to Mont St. Louis College Cadets and to other groups like them as "historic nurseries of good officers."

Lecturer was E. Harwood.

Oil Worker Killed

STETTLE, Alta., May 5 (CP).—George Morley of Nordegg, 21, an oil worker, died in hospital here Saturday following an oil rig accident on the Nemitz farm near Bymoor, about 30 miles southeast of here.

Injured in the accident but not in serious condition was L. O'Hara, 21, of Stettler.

The accident, few details of which were released, apparently occurred Saturday morning when a heavy hook used for handling drilling tools broke loose. Morley received the full weight of the hook on his head and back while O'Hara was cut about the face and head.

DICK TRACY

YES, THAT BIG TRACTOR WILL BE JUST RIGHT.

THIS IS A BLIND ALLEY—HE'S NOT TOO HEAVY, WE CAN HIT HIM RIGHT OVER THE FENCE.

AND AT THE TV STATION, IT WAS A SENSATIONAL SHOW. TWO SPONSORS ARE NIBBLING ALREADY.

CALL US A TAXI, BOY!

NANCY

LET'S GO.

ON I THINK YOU CAN HANG ON FOR A LITTLE WHILE LONGER!

HOW CAN YOU BE SO STINGY? ALL I WANT IS A LITTLE SOMETHING TO HOLD ME TILL MEALTIME!

AROUND HOME

W. A. HOW? I'M ASKING! WHAT CAN I HAVE TO EAT?

DINNER WILL BE READY IN JUST A FEW MINUTES!

GOSH, MOM! YOU DON'T UNDERSTAND! I'M STARVING!

ON I THINK YOU CAN HANG ON FOR A LITTLE WHILE LONGER!

HOW CAN YOU BE SO STINGY? ALL I WANT IS A LITTLE SOMETHING TO HOLD ME TILL MEALTIME!

HOPALONG

THAT WAGON PARTY SURE TRAPPED ITSELF BY HOUN UP IN THIS CAVE, WITH THE WIND IN THE RIGHT DIRECTION, THAT FELL EITHER SMOKE 'EM OUT OR SMOOTHER 'EM.

INSIDE THE CAVE HOPPY AND HIS FRIENDS RETREAT FROM THE MENACING BILLOWS ROLLING TOWARD THEM....

THE SHALLOW POCKET FILLS RAPIDLY, THE DEADLY SMOKE ENGULFING THE VICTIMS IN IT HOT, SEARING BREATH....

OSARK

OSARK, IT'S ME!

OSARK, IT'S ME!

OSARK, IT'S ME!

OSARK, IT'S ME!

KERRY DRAKE

WHY ARE YOU SAYING THE WIRE THAT KILLED THE HOUSE-BOY, KERRY?

IT MAY HELP US ESCAPE, ALGY, AND IF WE DO IT IT'LL ALSO BE EXHIBIT "A" AT GIMMICK'S MURDER TRIAL.

THE BOSS'LL BE GLAD TO SEE YOU! MRS. GIMMICK!

TOO BAD YOU HELPLESS MEN COULDN'T GET RID OF THREE PRISONERS WITHOUT BREAKING INTO MY VACATION!

CHRIS WELKIN

RAD RINE'S MEN MAKE A QUICK INSPECTION OF THE SUPPLY BOCKET.

NO STOWAWAYS ABOARD AND NO EXPLOSIVES IN THE CARDO RINE.

AS THE SUPPLIES ARE UNLOADED, CHRIS CLIMBS TO THE TOP DECK OF THE SPACE PLATFORM.

I'M A BIT DISAPPOINTED IN WELKIN... NEVER THOUGHT HE'D SAY "WINKLE" WITHOUT A FIGHT!

HAS HE REALLY GIVEN UP, OR IS HE PLAYIN' IT COZY, MACK?

ALLY OOP

WELL, THAT DOES FOR DEAR OLD OOP. MACK'S KNOCKED 'IM FOR A LOOK NOW I NEED NO LONGER DREAD THAT HE THIS AMAZON WILL WED!

I'LL GO PICK UP OUR GOLD AND GEMS, THEN I'LL TEND TO GETTIN' HIM OUT OF HERE...

I DON'T JUST KNOW WHERE WE WILL GO BUT...

CRAZY

KING AROO

WELL, WELL! SO YOU'RE A KNIGHT, TOO, EH? WHAT'S YOUR NAME?

I'M SIR WALDO RILEY. AS GALLANT AS A KNIGHT AS YOU'LL FIND ANYWHERE.

I'LL BET I'M GALLANTER THAN YOU ARE.

POOH! JUST THIS MORNING I WENT TO THE AID OF MIKE DANGELS IN DISTRESS! TRY TO TOP THAT!

AH, EH? TAKE A LOOK AT MY SCORE CARD! I HELPED A WHOLE DOZEN!

WELL, NO WONDER! JUST LOOK AT THAT MOTLEY ASSORTMENT! NO TWO DANGELS IN THE SAME DISTRESS!

NONE OF THAT CATCH-AS-CATCH-CAN BUSINESS FOR ME! I SPECIALIZE! I ONLY HELP DANGELS ACROSS MUD PUZZLES!

BOARDING HOUSE

WHOA! DO I SEE A NEEPING WILLOW ON THAT CHAIR, MACK? I'D BETTER CRAWL BACK UNDER THE COVERS AND COME OUT OF THE EITHER THE RIGHT WAY!

ONE OF THE MAJOR'S LITTLE SURPRISES—AN OLD ENGLISH SHEEP DOG! HE'S A WORKING DOG AND HE WANTS TO HERD US SHEEP OUTA THE BARN AND DOWN TO THE BUS! —COME ON, WE'LL LET HIM INTO THE MAJOR'S ROOM!

A WORKING DOG? HE WON'T BE HERE LONG.

MARK TRAIL

MEANWHILE, MARK HAS STOPPED FOR BOAT REPAIRS.

I GUESS THE BOATS OKAY NOW, JOHNNY, BUT I HATE THE LOSS OF OUR RADIO... THAT COULD BE SERIOUS!

UNAWARE THAT MARK TRAIL IS MAKING A DANGEROUS BOAT TOP DOWN THE TREACHEROUS COLORADO RIVER FOR HER, CHERY DAVIS IS PREPARING TO MARRY JEFF CRANE.

OFFICIALS PUZZLED

Flying 'Cigar' Seen By Many Australians

SYDNEY, Australia, May 5 (UP).—Reports that a "cigar-shaped object larger than any plane" flashed across the south-east Australian sky just after dawn Saturday is puzzling air force and civilian scientists today.

At least 13 persons from four areas of New South Wales asserted they saw the mysterious object. Among them were two airline pilots and a Royal Australian Air Force officer who served in the Second World War.

All of the sightings were within seven minutes of one another and ranged from Sydney to the south coast, 100 miles away, and Parkes, 200 miles west of Sydney.

All witnesses agreed that the object was shaped like a cigar and traveled at speeds of hundreds of miles an hour and at altitudes ranging from 4,000 to 25,000 feet.

R.A.A.F. spokesmen said no jet planes were over any of the areas at the time specified. Weather bureau officials said the object was "definitely not" a weather balloon.

Dr. J. H. Piddington, principal research officer in the radio-physics division of the Commonwealth scientific and industrial research organization, suggested the watchers might have seen light reflected from a cloud, possibly one containing ice crystals.

But Reg. Edwards, one of three postoffice employees who reported sighting the phenomenon, disagreed. He said the object appeared to have many lighted windows, much as a ship at sea.

"It took us a couple of seconds to realize that we were not dreaming when the thing first flashed across the sky," he said.

"It was a long, thin, like a ship or a submarine, and at least three of four times larger than a DC-4 Skymaster. It made no sound as it flew at about 500 miles an hour.

"We were all convinced that it was not a meteor of any kind. We watched it for about a minute before it disappeared into a cloud bank."

Giant Cunard Plans Embrace 11 New Ships

LIVERPOOL, England, May 5 (Reuters).—The giant Cunard shipping group today announced a four-year £15,325,000 construction program.

In the annual report, chairman Frederic Bates said 11 new vessels will be built by 1956—two for the Atlantic services to Canada, three for Australia (the subsidiary Port Line) three for the Mediterranean run, and three for India, Pakistan and Ceylon (the Brocklebank Line).

He said Cunard's post-war renovation and replacement program now is complete.

The group declared a final 12½ per cent dividend, which, added to an interim 2½ per cent dividend, equaled 1950's 15 per cent.

Operating surplus for 1951 was £6,445,000, compared with £10,780,000 the previous year. Net surplus was £3,351,000.

Bates said the three new ships for Canada will be built on the Clyde. They will be about 20,000 tons with a service speed of about 20 knots, designed to carry first and tourist-class passengers and cargo.

WINTERS STRIP IS DELAYED

The popular Blade Winters television strip had not arrived in the mail at press time today. Additional episodes will be carried to bring the story up to date when the strip does arrive.

5 Britons Talk Trade With China

MOSCOW, May 5 (BUP).—Five British business men have returned to Moscow today from Peking, where they discussed Anglo-Chinese trade with Foreign Trade Minister Yi Chi-zin.

The Britons say they found China anxious to expand trade with Britain beyond the \$28,000,000 deals concluded at the recent Moscow trade conference. They said representatives of British firms will meet Chinese export and import officials in Berlin on May 15 to work out details of the Moscow agreements.

HUGE U.S. AIRCRAFT LANDED AT GEOGRAPHIC NORTH POLE

ANCHORAGE, Alaska, May 5 (AP).—A United States air force crew put down a big C-47 on an ice pack at the top of the world for history's first successful landing at the geographic North Pole.

The landing was made Saturday, the Alaska Air Command reported Sunday. The crew sent back this message:

"Operation instructions carried out. No sweat."

Maj. Gen. William D. Old said air force officials and scientists spent three hours and 10 minutes on the ice pack taking measurements, then flew back to Fletcher's Island, a floating ice island 135 miles away, to report the historic landing.

The air command said the landing was made at the geographic North Pole.

Rioting Convicts Dictated Speech for Prison Official

JACKSON, Mich., May 5 (AP).—Dr. Vernon Fox's speech congratulating convicts on ending a five-day rebellion at Southern Michigan Prison was dictated by the mutinying men themselves, it was revealed Sunday night.

Fox confirmed Ward's dictation thus: "God, I wouldn't congratulate those guys. Neither would I break my word, once given."

The psychologist said he bowed to Ward's demands in return for the convict moving up the surrender time, explaining that state troopers were preparing to give the prisoners an hour to surrender or face armed storming of their barricaded cell block.

Mutiny leader Earl Ward released Fox, since relieved as assistant deputy warden and prison psychologist, of his pledge of secrecy Sunday.

ART EXPERTS PUT TO SHAME

AMSTERDAM, May 5 (Reuters).—Two bright schoolboys have put art experts and museum authorities to shame here. They discovered that an ultra-modern painting by Paul Klee, "Ludus Martis," was hanging upside down in the city museum.

The picture, "a series of stripes on a purple background," had been hanging so that Klee's signature was topsy-turvy in the wrong corner.

Electrical Contractors to Parley

NANAIMO, May 5.—First annual joint regional convention of electrical contractors' associations of Vancouver Island will be held Wednesday in the Malapina Hotel.

Members are Mid-Island Electrical, Alberni District Electrical Contractors and Cowichan Electrical Contractors' Associations.

Speakers will be C. W. Nash, B.C. Power Commissioner district manager; R. G. Taylor, Victoria accountant; Lance Robson, B.C. inspector of electrical energy; R. Hall, secretary-manager of the Electrical Service League of B.C.; and J. G. McKeachie, B.C. Power

Commission public relations officer. Robert Rathlef, Nanaimo, is general chairman of the convention committee.

POPULAR HOBBY
Philately, the hobby or business of collecting postage stamps, got its start in Canada about the time of Confederation.

More Comfort Wearing FALSE TEETH

Here is a pleasant way to overcome loose plate discomfort. FASTEETH, an improved powder, sprinkled on upper and lower plates, holds them firmly so that they feel more comfortable. No gummy, sticky taste or feeling. It's alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get FASTEETH today at any drug store.
